MESSAGE FROM THE CHANCELLOR

Professor L. L. Ratnayake *Chancellor & Chairman - SLIIT*

BSc Eng. (Hons) (Sri Lanka),
MSc (Birmingham), DSc (h.c), CEng, FIE (Sri Lanka),
Int. PE (Sri Lanka), FCILT (London), FNASSL

As we embark into another academic year, I am delighted to welcome our new students to Sri Lanka Institute of Information Technology (SLIIT) family. When SLIIT was founded in 1999, its mission was to develop future IT leaders with a high level of specialized theoretical and practical knowledge, enhancing their ability to contribute to the global society. Our core focus is delivering high quality academic programs that will enable students to achieve their intellectual potential and have greater choice in their lives beyond university. As the challenges of the world become more complex, our institute aims to equip the next generation with the skills and personal qualities that will not only enable them to flourish in a challenging environment, but also equip them to make a positive difference in the lives of others.

Over the years since its inception, SLIIT expanded its curriculum to different other disciplines. We now boast having highly qualified faculties and schools offering programs in Computing, Business, Engineering, Humanities & Sciences, and Architecture, Graduate Studies & Research. Each of the faculties and schools offer degree programmes that are created taking current trends into account to ensure the highest possible employability rate of our students. Our faculty staff are of highest academia with vast experience in their fields of study. There is an active interaction between faculty and students in the university and the learning experiences gathered during the study period will pave a strong path for enhancement of overall development of our students.

The Institute has gone from strength to strength, collecting many accolades along the way. SLIIT degrees are approved by the University Grants Commission under the Universities Act and the Ministry of Education. The Institute conforms to every quality assurance regulation, set by local authorities. Today, apart from being ranked as Sri Lanka's leading non-state higher education institute, according to international standards; the Institute has also earned memberships in several Commonwealth Universities and International Association of Universities.

SLIIT continues to expand its portfolio and our campuses in Malabe, Kollupitiya as well as centers in Kandy, Matara, Jaffna and Kurunegala providing the best in higher education within modern state of the art environments and infrastructure. The growing demand from students and parents who desire to be part of SLIIT has prompted us to establish two large campuses in the prominent cities of Kandy and Galle.

At SLIIT, we aim to provide a holistic learning experience, combining academics with a range of extra-curricular activities from sports to clubs and societies. We believe that social skills are a vital part of a well-rounded education and staying fit stimulates the brain. There are several community-based programs that SLIIT undertakes so that our students learn empathy towards the marginalized. Our cultural events are designed to foster ethnic harmony and unity. All these opportunities play a pivotal role in molding and equipping our students to become successful in their selected fields, with the capability of integrating with any levels of our society.

It is also essential to mention that our collaborations with internationally reputed universities in UK, Australia, Canada, and USA, continues to attract an ever-growing number of students from Asia and the African continents, making SLIIT a cultural hot spot for networking amongst students. Combined with SLIIT's state-of-the art facilities and dynamic learning environment, is our eminent team of educators who are driven and committed to give of their best to our students from various backgrounds and cultures.

I urge you all to take advantage of every opportunity we have made available to you, to develop and groom yourselves as future graduates and corporate leaders. You may look up for any guidance, support and help from our lecturers and peers to move ahead in life as professionals in the study programs you have opted. As new students of SLIIT, you are the torch bearers of the country to bring in positive change towards a direction that will develop overall sustainability for a better future.

Finally, let me wish you the very best of luck in your academic endeavors during your tenure as a student at Sri Lanka Institute of Information Technology, and hope that each of you would be able to become a world class professional who will contribute to the betterment of our motherland.

MESSAGE FROM THE VICE CHANCELLOR

Professor Lalith Gamage
*Vice Chancellor/ Chief Academic Officer/
 Chief Executive Officer*

BSc Eng, MSc, PhD, MBCS, cEng, MIE (SL)
 Affiliate Professor - University of British Columbia,
 Canada
 Adjunct Professor - Curtin University, Australia

The journey of SLIIT rising to prominence as a leading institution of higher education in Sri Lanka has been written for over two decades. Our pride and delight lie in the illustrious lives and achievements of our alumni, who have gone on to make significant contributions to the economy and society at large. For us at SLIIT, it's all about giving our students' cornerstone knowledge and skills that will serve them well throughout their whole lives. Together, our vision and mission are centered on assisting each student in transitioning from a dependent child who is home and school-bound to an independent young adult capable of discovering new skills, acquiring new knowledge, and applying that knowledge to solve problems in the workplace, community, and beyond.

Our institute dedicates itself to teaching and learning excellence, expanding our research and development efforts through innovation, adopting a more international perspective, and forging partnerships with other top institutions worldwide, raising the bar for ourselves and the field at large. Students gain experiences in state-of-the-art laboratories, workshops, fieldwork, and internships in industry and commerce and acquire the necessary practical education and training.

The Institute's Consultative Boards guarantee that the contents and outcomes of all of our programmes meet industry standards. Our students have access to a global network of distinguished academics and business personnel and thoughtfully crafted degree programmes to meet the needs of today's dynamic environment. We have made substantial investments in cutting-edge facilities in order to deliver a novel educational experience to our students at each and every step of their time spent studying at SLIIT. We have a team of only the most qualified experts with high academic qualifications as well as industrial experience, with the capacity to direct our students in both the theoretical and practical realms of their education. They examine course materials, give presentations, and participate in student-led research projects, all of which contribute to our students' development as individuals. SLIIT has been awarded over Rs. 125 million in research grants from the Government, the World Bank, and industry sources, primarily due to its innovative approach to integrating research and teaching.

In response to the pandemic, SLIIT established a landmark in the annals of higher education in Sri Lanka by effectively transforming itself into a virtual campus. This enabled more than 12,000 students to participate in interactive lectures on a daily basis through the medium of an online platform. SLIIT is one of the few universities to successfully redesign the education system by bringing the culture, novelty, and convenience of online learning to a traditional classroom setting. Now that we are emerging from the pandemic, students are returning to on-campus teaching and learning environment with all the benefits of the online resources while adhering to COVID-19 health measures.

In the wake of the ongoing economic crises, governments and their populations are turning to education more than ever before. As the demand for higher education has increased, the non-state sector, led by SLIIT, has stepped in to fill the void, thereby allowing higher education opportunities to a wider section of the society. We take great pride in continuing to lead the way in extending educational opportunities, ensuring the delivery of relevant and high-quality education, and significantly contributing to Sri Lanka's socioeconomic growth by promoting innovation and refining talents.

Professor Nimal Rajapakse

OUR OBJECTIVES Education & training of professionals at a high level of excellence in the fields of IT, Business, Engineering, Humanities & Sciences.

Assisting and promoting enterprises, innovators and start-up companies with the necessary expertise to achieve business objectives.

Provision of consultancy services and software services to public and private sector enterprises of Sri Lanka at a reasonable cost.

Conduct and promote research & development leading to specialised applications, services and innovative technology products.

Expanding horizons in the fields of IT, Business, Engineering, Humanities & Sciences to reach international level.

THE FUTURE AWAITS YOU

SLIIT has an honoured history and a continued thirst for achievement characterised by the tireless pursuit of accreditations and collaborations.

We are also the first Sri Lankan institute to be accredited by the Institution of Engineering and Technology UK, for Information Technology degrees. Our degrees are also approved by the University Grants Commission under the Universities Act and Ministry of Higher Education in Sri Lanka. The institute is a Member of the Association of Commonwealth Universities and International Association of Universities (IAU). SLIIT offers a wide range of study areas, including Bachelor's, Master's and PhD degrees in Computing, Business, Engineering, Architecture, Quantity Surveying, Psychology, Law, Nursing, Education and Sciences. SLIIT also connects people both locally and globally. We have more than 50 industry partners and collaborative agreements with foreign universities to broaden our horizons.

Since its inception in 1999, SLIIT has successfully established an environment that is conducive to learning throughout all its campuses and centres. The institute has two campuses in Malabe and Colombo and also four regional centres in Matara, Kandy, Kurunegala and Jaffna.

Having started out with a mere 400 students, today, the institute boasts a student population of over 15,000+. Together with superior research facilities and optimum resources, SLIIT is able to encourage students to reach new heights in both innovation and excellence. The consistently high standards that we strive to maintain ensures our graduates are not only accepted on the global platform, but are able to effectively tackle challenges in the real world. Additionally, we aim to instil in our students analytical, problem-solving and communication skills to help them navigate their way.

Furthermore, if students are interested in pursuing a foreign degree, they have the option of following an offshore programme right here in Colombo or follow the pathway option facilitated by many of our partner universities. If students are unable to complete their studies due to unavoidable circumstances, they have an exit option at each level, with the ability to rejoin the programme at an appropriate level and continue through to graduation.

SLIIT CAMPUSES & CENTRES

MALABE CAMPUS

Nestled within a serene environment yet in close proximity to Malabe city, the SLIIT Malabe campus sits on a sprawling 25-acre site. Aside from offering a wide range of courses, it also presents a host of superior facilities for students. Not only is it an esthetically designed, it is technologically progressive too.

Modern buildings are comprised of a 14-storey building, accommodating examinations, Faculty of Graduate Studies & Research, Faculty of Humanities & Sciences, School of Architecture; a 09 storey building housing the Computing Faculty and the main library; the 07 storey building home to the Engineering Faculty, the 04 storey building accommodating the Business School and a 02 storey building complete with a large auditorium.

The building complex adds up to a total area of over 400,000sqft, and consists of lecture halls, laboratories,

auditoriums, communication facilities, library & reading rooms, administration & service facilities, and common student areas, including several cafeterias.

The campus also boasts a large playing field, tennis, basketball and table tennis courts, along with a jogging track.

Further in-house facilities are available: Research and Development, Incubator & SLIIT Research Centre.

All study / common areas are WIFI enabled. Laboratories, lecture halls, library and reading rooms are air-conditioned & fitted with automatic lifts, fire detection and control systems and CCTV camera surveillance.

METROPOLITAN CAMPUS

The SLIIT Metropolitan Campus in Colombo, is located at the BoC Merchant Tower, Colombo 03. This building is centrally located and is close to Colpetty Junction, with readily available public transport services in all directions. The SLIIT building is centrally air-conditioned, consists of automatic lifts, fire detection and control systems, CCTV camera surveillance and a highly conducive environment for research and study.

Students are transferred to the Malabe campus after the first 2 years for further specialised study. In-house facilities are also available to conduct Professional Development programmes, and Research and Development programmes as well.

The CISCO Instructor Training Centre, CISCO Academy Support Centre and CISCO Networking Academy for students, the Microsoft IT Academy and the Pearson.

SLIIT facilities are found on the 07th, 12th, 13th, 15th and 16th levels of the BoC Merchant Tower. Additionally, there is a restaurant on the 10th floor, along with banking facilities on the 1st and 2nd floors.

MATARA CENTRE

The regional centre located in Matara was established 23 years ago in 1999 as the first centre and is situated in the heart of Matara town now by the Broadway. We can enrol students up to 200 for the diploma level of the degree program.

This regional centre was originated due to the convenience of students in and around Matara. SLIIT building consists of an automatic lift, fire detection and control system, CCTV camera surveillance an a highly conducive environment for study with state-of-the-art facilities.

The Center facilitates the first two years of the computing degree and also, the first year of the business degree. Upon completion of the diploma level students can transfer to the Malabe Campus to complete their degree.

KANDY CENTRE

The SLIIT Kandy Centre is situated in the heart of Kandy City, with the collaboration of E-Wis Career Training (Pvt) Ltd. The Centre can accommodate more than 400 students for diploma level in Computing and Business.

We are equipped with modern laboratory facilities and state of the art lecture halls where students will be learning identical programmes as at other campuses. On completion of studies, they can transfer to our Malabe Campus to complete the degree.

KURUNEGALA CENTRE

The Kurunegala Centre of SLIIT was established in 2013 in collaboration with E-Wis Career Training (Pvt) Ltd. The Center can accommodate more than 100 students to follow the diploma level of the computing and business degrees.

JAFFNA CENTRE

The Jaffna centre was established also for the convenience of the students in and around the Jaffna region.

Students have the option of studying the first year of the degree at the Jaffna centre and upon completion of studies, they can transfer to our Malabe Campus to complete their degree.

We are fully equipped with modern laboratories and state of the art lecture halls, including modern library facilities.

KANDY CAMPUS

Entrenched next to the Pallakele International Cricket Stadium), SLIIT Kandy Campus is slated to commence functioning in March 2023. The Campus will incorporate a seven-storey academic building and a ten-storey hostel building with a capacity to accommodate 8,000 students upon full completion and 2,000 students during the first completion of the first phase. The Campus will be fully equipped with cutting-edge facilities such as modern class rooms, laboratories, hostel to accommodate up to 600 students, libraries, research and development facilities, conference hall, medical and well-being centre, indoor and outdoor sports facilities and communal spaces. All degree programmes that are currently offered at the SLIIT Malabe Campus are anticipated to be conveyed at the Kandy Campus.

CURTIN COLOMBO

Curtin Colombo, the latest addition to Curtin University's global operations, is now offering its pioneering courses to students in Sri Lanka and the region. In recent years, Curtin University has achieved its highest-ever result in the QS World University Rankings by rising to 193rd globally and continues to be positioned in the top 1% of universities globally (QSWUR 2023). Curtin University is now an international powerhouse committed to making tomorrow better.

Curtin Colombo offers Curtin University degrees in engineering, computing and business that the students may complete in Sri Lanka. By choosing to complete the course at Curtin Colombo, students get the opportunity to obtain a Curtin degree, living at home all the while and saving substantial costs. Students also have the option of transferring to Curtin Perth in Western Australia or to any of the Curtin international branch campuses around the world during their study period. This flexibility allows students to explore multiple destinations and cultures during the course of their degree.

Curtin's engineering programs are accredited by Engineers Australia, the professional body for the engineering in Australia. Graduates from these degrees fulfil the stage one competencies required by Engineers Australia. Graduates from degrees in Software Engineering, Cyber Security and Information Technology can apply for membership of the Australian Computer Society and be recognised internationally in many countries, including Japan, South Korea, and the UK. Curtin Business School, the awarding body of the Business Administration program is accredited by AACSB (Association to Advanced Collegiate Schools of Business), UN Principles for Responsible Management Education (PRME), and holds 4 Palmes of Excellence rating from the Eduniversal Business School.

Curtin is a truly global university with campuses in Western Australia, Malaysia, Singapore, Dubai, and Mauritius, and partnerships with more than 130 institutions worldwide. This means there are several locations around the world where students can study a Curtin course. Students will also be gaining access to a valuable international network of industry and research collaborators.

RESEARCH WITH IMPACT

Research forms an integral part of SLIIT. Our research Centre is established to foster a culture of innovation amongst the academic staff and students and promote novel thinking. This facility is overseen by a committee of senior academics/ researchers. Moreover, the Sri Lanka Technology Incubator provides necessary facilities for new and startup companies to take successful projects to the next level.

- Being a leading degree-awarding institution in Sri Lanka, SLIIT has received over Rs. 125 million in research grants from the government, the world bank, and business sources. With the advent of the Research Grant Scheme, SLIIT's research programs have earned a stellar reputation.
- We aim higher in our academic and research activities in order to gain more visibility and recognition by prominently featuring our research pieces on international research platforms.
- Our Research Centre fosters an innovative environment for inter-disciplinary collaboration by allowing national and international researchers to present their work at international conferences on Software, Knowledge, Information Management, and Applications (SKIMA).
- The Faculties of Engineering and Computing offer the M.Phil. and Ph.D. programs and recently SLIIT business school was also granted this facility by the UGC. In near future, the Faculty of Humanities and Sciences hopes to follow suit.
- Each department has its own research team, each of which is headed by a senior professor. In exchange, these senior academics are eligible for SLIIT's annual research awards.
- Research methodology is a compulsory module for all postgraduate degrees at SLIIT. Each student undertakes a comprehensive research project with the guidance of SLIIT staff members.
- Grants may be utilized for research purposes at the discretion of students. These include gaining access to beneficial resources such as online publications and attending relevant conferences.
- The SLIIT Research Centre is well-equipped for both staff and student research and is overseen by a committee of senior academics and researchers.
- The SLIIT Research Centre on the Malabe Campus offers a nurturing study environment, and outstanding computer equipment, and is open to research discussions.

SLIIT CAROLS

Our academic experience is enhanced by many social and cultural events organised by internal student societies. We strongly believe that students need to complement their academic work with a wide variety of extra-curricular and co-curricular activities. As such, SLIIT provides these opportunities and encourages students to participate in them actively.

All students entering SLIIT follow orientation courses prior to embarking on the degree. They are designed to improve English Language, Mathematical and Computer Skills. Each of these courses are highly beneficial in sculpting polished individuals.

Furthermore, as all SLIIT programmes are conducted in English medium, the English course is particularly useful.

We now also provide student counselling and guidance services, established to assist and support students with any difficulties or issues that could hinder their personal and professional development.

SLIIT DEGREES AT A GLANCE

FACULTY OF COMPUTING

SLIIT Faculty of Computing is equipped with a range of courses specialising in various arms of the IT sector. Students are able to choose a path that is most in-line with their requirements, allowing them to pursue substantial careers in their selected field.

Combined with an in-house lecturer panel, expansive computer laboratories and hands-on learning, SLIIT provides its Faculty of Computing students with the ideal environment to develop their computing skills.

Our computing degrees are awarded by SLIIT as approved by the UGC under the Universities Act. The institute is also a Member of the Association of Commonwealth Universities and International Association of Universities (IAU).

Students have the option of studying the Curtin University offshore programmes in Sri Lanka right here at Curtin Colombo. Students can also complete their degree at one of SLIIT's partner universities in UK, USA, Canada and Australia.

FACULTY OF COMPUTING

Specialisations

BSc (Hons) in Information technology

- Information Technology
 - Computer Systems & Network Engineering
 - Information Systems Engineering
 - Software Engineering
 - Interactive Media
 - Cybersecurity
 - Data Science
-
- BSc (Hons) in Computer Science
 - BSc (Hons) in Computer Systems Engineering

The Association
of Commonwealth
Universities

This BSc (Hons) in IT degree allows students the following options upon successful completion of the prescribed modules:

End of 2nd year: Higher Diploma in Information Technology

End of 4th year: BSc Honours degree in Information Technology.

Students have the option of exiting a course, should they be faced with restrictive circumstances. Whilst they can rejoin at a later date, such requirements are subjected to relevant registration procedures and approval by SLIIT.

*Note : All theses degrees are four years Honors degrees

Refer Page: 27 Programme pathways for IT Degrees

INFORMATION TECHNOLOGY

ABOUT THE PROGRAMME

The programme inculcates the right combination of theory and practical, hands-on expertise on how to take care of both an organisation's information technology infrastructure and the people who use it. A graduate of this programme is capable of developing/selecting hardware and software products appropriate for an organisation, integrate those products with organisational needs and infrastructure, and install, customise, and maintain those applications.

This programme is designed for technically focused students who wish to build a solid technical foundation in information technology and its application, facilitating the students to develop strong technical skills. The programme covers a wide range of key knowledge areas related to Information Technology, including Programming, Software Engineering, Networking, Database Management Systems, Operating Systems, Web Technologies, and Human-Computer Interaction.

Also, the graduates are exposed to other vital areas, such as Systems Administration, Technical Support, Project Management, Accounting, Marketing, Entrepreneurship, and Business management.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and pass the Aptitude Test conducted by SLIIT.

Career Opportunities

- ICT Infrastructure Engineers
- Information Assurance Engineers
- Software Quality Assurance Engineers
- Software Engineers
- Network Engineers
- DevOps Engineers
- UI/UX Engineers
- Project Coordinators
- Business Analysts
- IT Managers
- IT Educationists

COMPUTER SYSTEMS & NETWORK ENGINEERING

ABOUT THE PROGRAMME

Focused on design, development and maintenance of computer and data communication networks. Design and maintain services required for a secured enterprise network infrastructure.

Covers a wide range of key knowledge areas related to computer systems and networking discipline, including network design and management, the convergence of IT and telecommunications, embedded systems, computer hardware and software, real-time systems and IT technical support.

The programme is specially designed to improve the students' knowledge of theories, principles and practices in computer network engineering field and a wide range of soft skills.

The key knowledge areas of the programme include computer network engineering, computer systems administration, embedded systems engineering and cloud computing related technologies. Students will undertake a mandatory six months industry placement after their second year

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka), including Physics and Combined Mathematics or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel, including Physics & Mathematics in one and the same sitting and pass the Aptitude Test conducted by SLIIT.

Career Opportunities

- Network Engineers
- Network Administrators
- Computer Systems Engineers
- Computer Systems Administrators
- Database Administrators
- Cloud Systems Engineers
- Scripting Engineers
- DevOps Engineers
- Security Engineers
- Infrastructure Engineers
- Network Architects
- Virtualisation Engineers
- Backup Storage Engineers
- Network Designers

INFORMATION SYSTEMS ENGINEERING

ABOUT THE PROGRAMME

Develops a sound understanding of principles and practices related to both technical and organisational aspects of ICT in graduates. ISE graduates can serve as an effective bridge between the technical and management communities within an organisation, enabling them to work in harmony to ensure that the organisation has the information and the systems it needs to support its operations.

Play a key role in determining the requirements for an organisation's information systems, and actively involved in the requirement specification, design, implementation and management.

Covers several key areas related to the discipline, including business & systems analysis, requirement engineering, systems design, business process re-engineering, enterprise resource planning and fundamentals of business management, along with marketing, accounting and human resource management.

Will have hands-on experience through industry internships and will have opportunities to connect with successful businesses in the ICT industry. Caters to those interested in becoming specialists focused on integrating IT solutions and business processes to meet the information needs of businesses and other enterprises

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and pass the Aptitude Test conducted by SLIIT.

Career Opportunities

- Business Analyst
- Business Process Analyst
- Systems Analyst
- Enterprise Architect
- Project Manager
- Business Information Manager
- Application Developer
- Database Administrator
- Software Quality Engineer
- Product Owner
- ICT Consultant

SOFTWARE ENGINEERING

ABOUT THE PROGRAMME

Focused on application of software engineering theories and practices to design, develop, and maintain solutions to complex real-world problems through a sequence of processes, including problem identification, analysis, software design, development, verification and documentation.

Solutions may include single-user applications to enterprise-level applications that can scale globally.

Covers a wide range of key knowledge areas related to software engineering discipline, including requirements engineering, object-oriented analysis and design, full-stack development, mobile application development, enterprise-level application development, architecting software applications that can scale globally, software quality assurance, user interaction/user experience design and industry best practices used in developing Software.

Aimed at instilling a solid foundation in the entire software development lifecycle, well-equipped with theoretical and practical skills.

Students will undertake a mandatory six months industry placement after their second year.

Entry Requirements

Minimum 3 “S” passes in G.C.E A/L (Sri Lanka) or a minimum 3 “D” passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and pass the Aptitude Test conducted by SLIIT. To progress from the second year to the third year of the specialisation, a student must meet the minimum GPA requirement specified by the Faculty.

Career Opportunities

- Software Engineer
- Mobile Application Engineer
- UI/UX Engineer
- Full Stack Developer
- Web Application Developer
- DevOps Engineer
- Machine Learning Engineer
- Quality Assurance Engineer
- Cloud Software Engineer
- Site Reliability Engineer

INTERACTIVE MEDIA

ABOUT THE PROGRAMME

Focused on producing computing professionals proficient in creative digital media technologies.

Produces graduates with skills in producing the next generation of multimedia applications, products, and systems.

Caters to the need of rapidly evolving, creative, media-based industries, and covers technical and applies aspects such as: Design Ideation, 3D Modelling & Animation, Digital Video Production, Digital Image Processing, UI engineering, Game Development, etc.

Students will undertake a mandatory six months industry placement after their second year.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and pass the Aptitude Test conducted by SLIIT. To progress from the second year to the third year of the specialisation, a student must pass a selection interview.

Career Opportunities

- UX/UI Engineer
- Visual Concept Designer
- Game Technologist
- Game Designer/Developer Web Developer
- Creative Director
- Production Manager
- Mobile Application Developer
- 3D Modelers
- 2D/3D Animators
- 2D/3D Visual Concept Designers
- Digital Marketing Specialists
- Advertising Media Specialists
- Interactive Designer
- Cinematographer
- Video/Visual Production Specialist
- Audio Production Specialist
- Multimedia Developer
- Multimedia Programmer
- Broadcasting Technologies

CYBER SECURITY

ABOUT THE PROGRAMME

Focus on protecting computers, networks, programs and data from unintended or unauthorised access, change or destruction.

Emphasis on key areas related to the discipline, including information governance, risk assessment and management, security development, information security architecture, information security testing and information assurance methodologies, secure operations management, service delivery and vulnerability assessment, incident management, investigation, digital forensics, and information security audit.

Due to increasing and persistent cyber attacks, there is a demand for cybersecurity professionals with a deep understanding of the complexities of protecting and defending infrastructures and networks.

This programme provides an in-depth education with leadership and ethics focus. Going beyond programming and network administration, the cybersecurity program covers the critical topics facing organisations today, including data protection, legal and compliance, operational and strategic Cybersecurity management, penetration testing, and digital forensics.

Students will undertake a mandatory six months industry placement after their second year.

Entry Requirements

Minimum 3 “S” passes in G.C.E A/L (Sri Lanka) or a minimum 3 “D” passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and pass the Aptitude Test conducted by SLIIT. To progress from the first year to the second year of the specialisation, a student must meet the minimum GPA requirement specified by the Faculty.

Career Opportunities

- Cyber Security Professionals
- Network Security Specialists
- Operations and Security Managers
- Incident and Threat Managers
- Systems Security Architects
- Risk Analysts and Risk Managers
- Computer Forensics Investigators
- Security Operations Center (SOC) Analysts

DATA SCIENCE

ABOUT THE PROGRAMME

Data Science professionals can identify relevant questions, collect data from a multitude of different data sources, organise the information, translate results into solutions, and communicate their findings in a way that positively affects business decisions.

The curriculum has been designed to equip the undergraduates with the necessary knowledge, skills and attitudes to become effective professionals.

Key knowledge domains of the programme include Machine Learning, Big Data Technologies, Cloud Computing, Internet of Things, Database Systems, Data Engineering, Programming, Data Visualisation and Statistical Modeling.

Guaranteed industry placements.

The meticulous curriculum focuses on the fundamentals of computer science, statistics, and applied mathematics, while incorporating real-world examples. Graduates are prepared to succeed in specialised jobs involving everything from the data pipeline and storage, to statistical analysis and eliciting the story the data tells.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and pass the Aptitude Test conducted by SLIIT. To progress from the second year to the third year of the specialisation, a student must meet the minimum GPA requirement specified by the Faculty.

Career Opportunities

- Data Engineer
- Business Intelligence Engineer
- Data Scientist
- Software Engineer
- Big Data Engineer
- Data Analyst
- Data Architect
- Database Administrator
- Machine Learning Engineer
- Big Data Application Developer
- DevOps Engineer
- Data Science Specialist

BSc (HONS) IN **COMPUTER SCIENCE**

ABOUT THE PROGRAMME

The BSc (Hons) in Computer Science degree programme produces high-quality graduates with strong analytical and quantitative skills with a comprehensive knowledge in Mathematics, Programming, Software Engineering, System Modelling, and Research. The graduates must be versatile in the knowledge drawn from the key knowledge areas of Computer Science, including Algorithms Design and Implementation, Intelligent Systems, Parallel Computing, and Computational Science.

A computer science graduate will have the fundamental knowledge and skills of a software engineering graduate, with an emphasis on developing their own tools, frameworks, and required algorithms. In addition, a computer science graduate will also be able to apply state-of-the-art computer science methods in Algorithms, Fault-tolerant Design, Code Optimisation, and High-performance Computing. Because of the rapid pace of change in the computing field, computer science graduates must be life-long learners to maintain their knowledge and skills within their chosen discipline.

Entry Requirements

Minimum of 3 "S" passes (Covering Combined Mathematics & Physics) in G.C.E. A/L (Sri Lanka) in one and the same sitting or Minimum of 3 "C" passes (Covering Mathematics & Physics) in G.C.E A/L Cambridge or Edexcel in one and the same sitting, and a pass the Aptitude Test conducted by SLIIT.

Career Opportunities

- Computer Scientists
- High-Performance Computing
- Specialists
- Computational Specialists
- AI/ML Specialists
- Software Engineers
- Data Scientists
- Academics
- Researchers

BSc (HONS) IN **COMPUTER SYSTEMS ENGINEERING**

ABOUT THE PROGRAMME

BSc (Hons) in Computer Systems Engineering degree programme produces world-class graduates equipped with strong foundations in analytical and quantitative skills with comprehensive knowledge of electronics, mathematics, computer systems, system modeling, and research. The degree programme aims to create a multi-faceted graduate who is accomplished in the core knowledge areas in computer systems and electronic engineering, including software and hardware systems, as well as the foundations in mathematics, communication skills, and project management.

The programme is specifically designed to improve the students' knowledge on theories, principles, and practices in the computer systems engineering discipline with a wide range of soft skills. The rapid evolution in the computing field requires computer systems engineering graduates to be life-long learners to maintain their knowledge and skills within their chosen discipline.

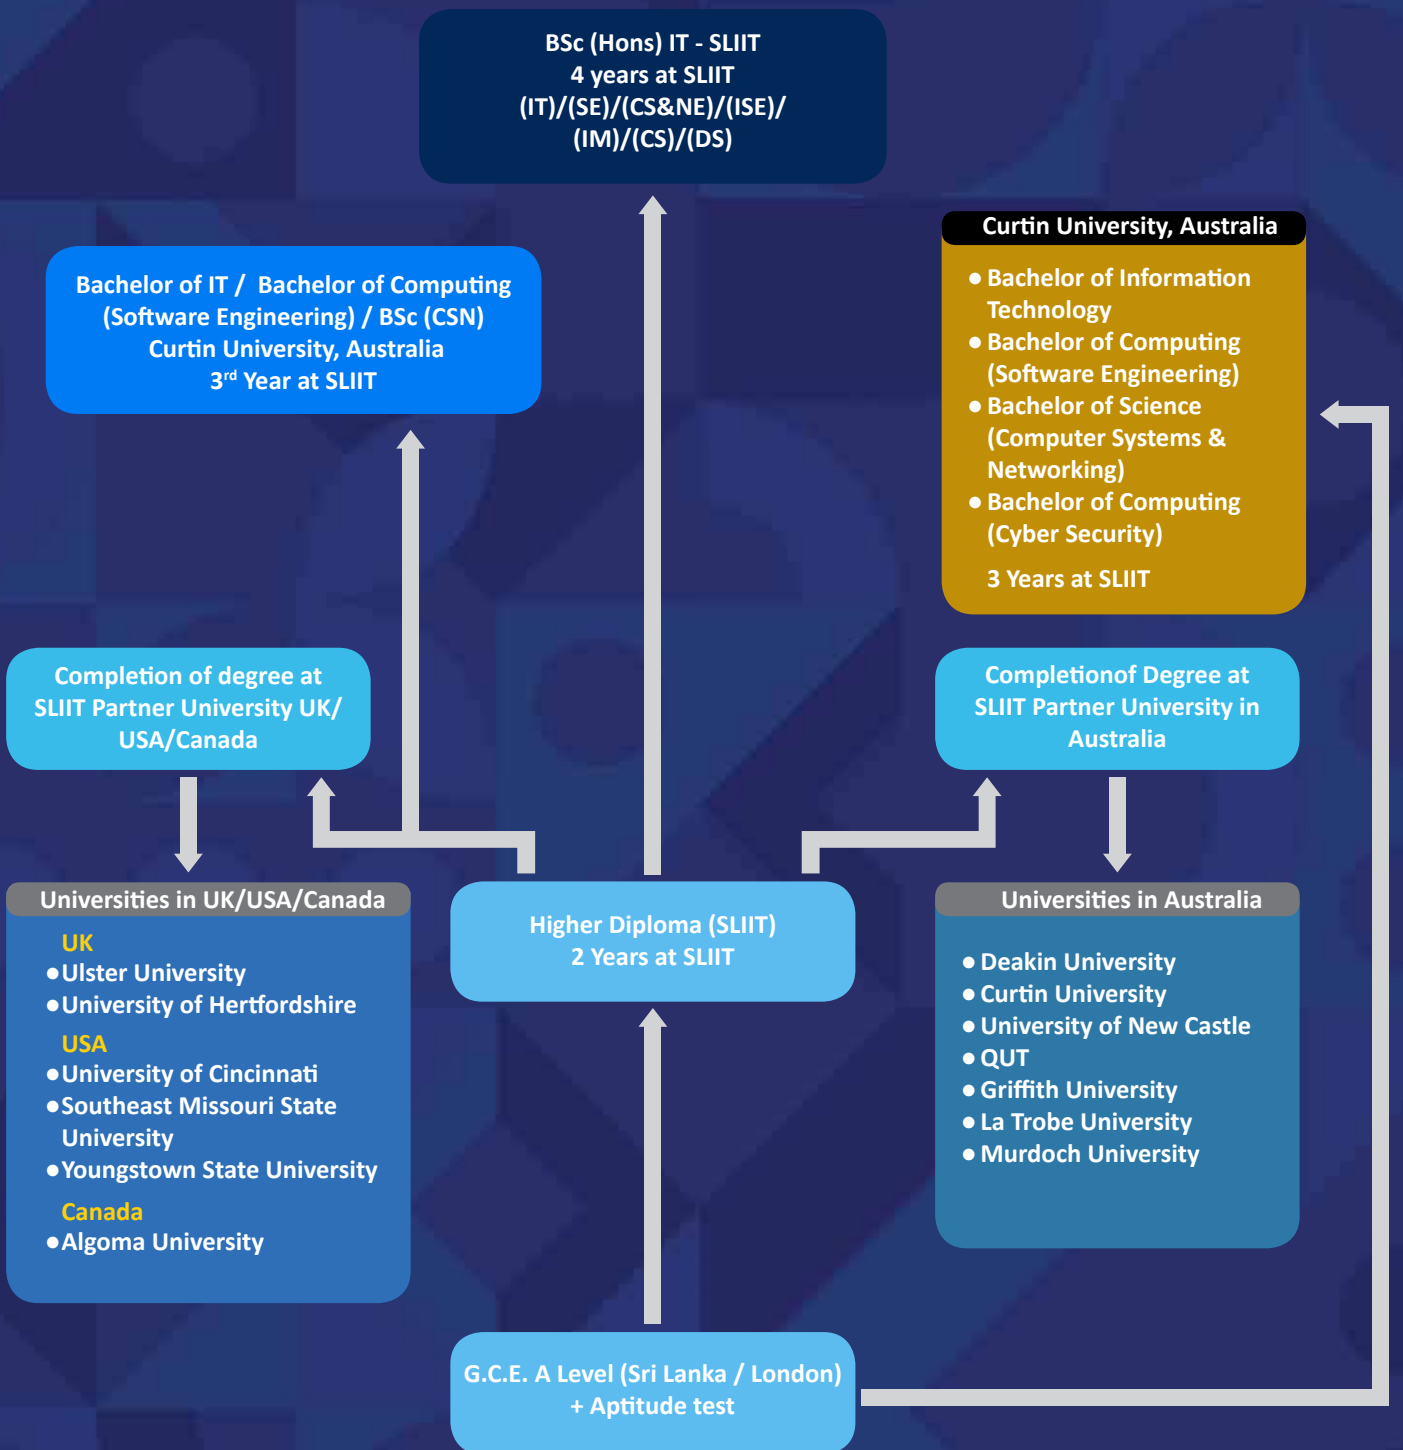

Entry Requirements

Minimum 2 "C" passes and 1 "S" pass in G.C.E. A/L(Sri Lanka) in the Physical Science Stream (covering Combined Mathematics, Physics and Chemistry) in one and the same sitting or Minimum 2 "B" passes and 1 "C" pass in G.C.E A/L Cambridge or Edexcel (covering Mathematics, Physics and Chemistry) in one and the same sitting, and a pass the Aptitude Test conducted by SLIIT.

Career Opportunities

- Computer System Design Engineer
- Aeronautics Engineer
- Electronics Engineer
- Industrial Engineer
- Computer Hardware Engineer
- Network Engineer
- Network Security Specialist
- Computer Support Specialist
- Lead Systems Engineer
- Systems Security Analysts
- Academia
- Researchers

SLIIT CODEFEST

ORGANISED BY: **FACULTY OF COMPUTING**

An annual event hosted by the SLIIT Faculty of Computing, this is the biggest software competition in Sri Lanka aimed at encouraging and promoting software application design amongst school and university students. The annual increase in entries, fierce competition amongst students and a rise in event categories, has made Codefest an event looked forward to by many schools and universities. 'Codefest is one of the many initiatives taken by SLIIT, aimed at creating a centre of excellence to advance and

disseminate knowledge. It is indeed a great honour to have one of our events recognised by the Ministry of Technology and Ministry of Education. Codefest is an ideal platform to promote the application of skills learnt through ICT-related modules taught in schools and universities' notes Professor Lalith Gamage: President and CEO of SLIIT. In addition, CODEFEST is organised as a part of a CSR project to disseminate IT knowledge across the island as a whole. Was established as a National ICT competition in 2015.

OUR STUDENTS, OUR PRIDE!

The fundamentals I learned at SLIIT gave me the confidence to not only face but “ace” my interview at Fidessa, the world’s #1 Equities Trading Platform providers. I subsequently worked in Technology teams at three investment banks in London; Royal Bank of Scotland, Barclays Capital, and JP Morgan. Holding a First-Class degree at the top of my batch became less relevant with time as subject knowledge became obsolete. I believe my commitment to a lifetime of learning beyond formal education has helped me adapt to change and make progress in my career.

Dimuthu Ratnayake

SLIIT- Faculty of Computing | EMEA Equities Programme
Trading J.P. Morgan

The weekend programme option at SLIIT enabled me to kickstart my career from the first year itself and pursue my studies over the weekend. I ended up being the batch representative and topping my batch a couple of times earning full scholarships. The lecturers were really supportive, and I wouldn’t be where I am today, if not for the ground work laid out by SLIIT.

Nilesh Jayanandana

SLIIT- Faculty of Computing | Architect at WSO2

I am an entrepreneur, innovator and avid programmer. The foundation that SLIIT created for me is an invaluable component, as dedicated members of staff, particularly the lecturers provided a solid sounding board to help hone my talent. Every course offered at SLIIT is incredibly competitive not just on a local but also global scale, with degrees affiliated with world-renowned universities, thus giving students opportunities to gain internationally recognised qualifications right here in Sri Lanka.

Chamira Jayasinghe

SLIIT- Faculty of Computing | Founder / CEO- Arimac

Almost one and a half decades in SLIIT as a student, a lecturer, a researcher, and a head of the department is an honor to me and one of my ambitions fulfilled. The best lesson the SLIIT taught me, and still teaches me, is managing the current moment, including time and resources. THERE ARE MANY Avenues SLIIT opened to me to represent the national and international sectors as an academic and a researcher. SLIIT gave me the wisdom to achieve my doctorate, my biggest ambition, and to serve Sri Lanka. I am always thankful to SLIIT and its excellent lecturer panel.

Dr. Janaka L. WIJEKOON

Lecturer, Systems Engineering Department, Military Technological College, Muscat, Sultanate of Oman.

SLIIT BUSINESS SCHOOL

Today, Business Management is a competitive and ever-evolving field. Graduates are expected to establish a multidisciplinary approach in any and all circumstances. Our BBA Honours Degree allows students to apply their theoretical knowledge effectively within practical situations through valuable communication skills taught during their study. We aim to craft seasoned graduates who not only possess all the necessary skills to succeed in business management, but also the right attitude. Along with the ability to think analytically and solve problems independently, they will be able to work as experts within the industry.

Our Business degrees are awarded by SLIIT as approved by the UGC under the Universities Act. The institute is also a member of the Association of Commonwealth Universities and International Association of Universities (IAU) as well as a member of the Association to Advance Collegiate Schools of Business (AACSB).

Students have the option of exiting a course, should they be faced with restrictive circumstances. Whilst they can rejoin at a later date, such requirements are subjected to relevant registration procedures and approval by SLIIT.

Students have the option of completing the entire 4-year course under the SLIIT as approved by the University Grants Commission and Ministry of Higher Education in Sri Lanka or they have the option of studying the Liverpool John Moores University and Manchester Metropolitan University offshore programmes in Sri Lanka, right here at SLIIT. SLIIT Business School has partnered with the University of Queensland, which is ranked among the top 50 universities in the world, to provide interested students with the opportunity to study the first year in Sri Lanka and complete the degree while experiencing university life at a top-ranked university during the final two years. Students can also complete their degree at one of SLIIT's partner universities in UK, USA, Canada and Australia.

BUSINESS MANAGEMENT

ABOUT THE PROGRAMME

The dynamic business environment demands multiple skills and abilities from management graduates. Rather than being specialised in a single area of knowledge, the graduates entering the business community would benefit by being equipped with knowledge in multiple areas important to a business. This offers flexibility to the industry to shape young graduates to their specific job requirements with minimum investment. The business community's need to recruit multi-skilled graduates who have exposed themselves to a wide range of knowledge and skills is intended to be catered to through the introduction of this BBA (Hons) Business Management programme.

This specialisation seeks to provide an academic experience with a strong emphasis on the development of business knowledge, skills and capabilities appropriate to the rapidly changing global, cultural and technological business environment.

The course aims to develop an enquiring, critical and reflective approach to ideas and issues, enabling successful graduates to contribute proactively to the world of private business, to public organisations, to the main business-related professions, to self-employment, and to the wider society within which businesses operate.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Consultants
- Business Executives
- Managers
- Business Development Executives
- Academics
- Business Coordinators
- Entrepreneurs
- Bankers
- Research Executives
- Management Trainees

HUMAN CAPITAL MANAGEMENT

ABOUT THE PROGRAMME

This four-year Human Capital Management (HCM) degree provides a competitive edge in producing human capitalists beyond HR managers.

This course provides theoretical and practical insights into soft and hard behaviours of human capital by covering a significant HCM content alongside soft skills development, and improving ethical behaviour with the intention of seeking employment in vivid industries in HCM capacity.

Covers the theoretical foundation of HCM, with a sound appreciation of other related business disciplines. Provides students with the knowledge, skills and social awareness necessary to manage people both nationally and internationally.

Growing awareness of the importance of HCM, has led to an increasingly competitive levels of pay, and graduates can therefore, look forward to excellent career prospects.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Human Capital Managers
- Academic Consultants
- Academics / Lecturers
- HRIS Specialists
- HR Analysts
- HR Assistants
- HR Advisors
- Senior Executives - Talent Acquisition

MARKETING MANAGEMENT

ABOUT THE PROGRAMME

This four-year Marketing Management degree will provide the students with the skills and experience to become a marketing professional, and the confidence to progress into a number of roles, from product marketing to public relations.

Right from the first year, students will engage in live client project work, putting their skills and knowledge into practice. There will also be opportunities to test their professional skills in a secure and supportive environment, and develop innovative approaches to solving marketing problems.

They will benefit from the collaborative approach to teaching and learning, which enables our students to determine the nature, structure and content of many modules.

The programme is accredited by the Sri Lanka Institute of Marketing (SLIM), the apex body for Sri Lankan Marketers.

Marketing Management emphasises the importance of converting an organisation's entire system into a customer-focused entity. Students are able to gain an entirely new perspective of both the organisation and the customer. Complete with universally applicable fundamentals, the study programme will provide students with an in-depth knowledge of marketing, as practices in today's competitive business environment.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Marketing Managers
- Sales / Marketing Executives
- Managers (Customer Relations)
- Brand Executives
- Brand Managers
- Online Marketing Analysts
- Marketing Specialists
- Tele-marketing / Digital Marketing Executives
- Merchandisers
- Public Relations Specialists
- Research Executives
- Management Trainees - Marketing

ACCOUNTING & FINANCE

ABOUT THE PROGRAMME

The programme offers a well-rounded mix of modules covering all aspects of accounting and financial management that blends together an understanding of the financial world and the topical issues affecting that world. The content of this programme is reviewed periodically to ensure it is kept up-to-date and in line with industry needs.

Students are provided with a thorough grounding of the theory and practice of accounting and finance embedded with IT not only in preparation for employment, but also for further academic and professional advancement.

This programme is accredited by the Chartered Institute of Management (CMA) Accountants and the Institute of Certified Management Accountants of Sri Lanka (CMA), who are members of the International Federation of Accountants (IFAC), and CMA being a member of the South Asian Federations of Accountants (SAFA) and the Confederation of Asian and Pacific Accountants (CAPA).

Moreover, the Chartered Institute for Securities and Investments (CISI) has recognised this degree by exempting the foundation level completely. Allows students to acquire in-depth knowledge typically required by an expert in Finance and Accounting. Electives available in the final year allow students options for further specialisations in the selected fields.

Entry Requirements

Minimum 3 “S” passes in G.C.E A/L (Sri Lanka) or a minimum 3 “D” passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Accounts Executives
- Accountants
- Audit Executives
- Finance Executives
- Finance Managers
- Audit Supervisors
- Management Trainees (Finance)
- Management Accountants
- Cost Accountants
- Financial Analysts
- Internal Auditors

LOGISTICS & SUPPLY CHAIN MANAGEMENT

ABOUT THE PROGRAMME

Here we target future leaders and managers in the fast-growing Logistics & Supply Chain sector. Our graduates gain knowledge and understanding of purchasing, materials management, supply-chain management, transportation, customs regulations, foreign exchange, international trade and information technology. This area has become an extremely important and vital pre-requisites in effectively managing any type of business today. It provides a sound theoretical and conceptual knowledge and the capacity to apply analytical methods to facilitate sound operational and strategic business decisions.

Provides students with the core knowledge necessary for a wide range of logistics and supply chain activities such as demand planning, purchasing, inventory control, material handling, product and service support, IT, transportation, distribution, warehousing and strategic supply chain management. Focuses on the analysis, design, implementation, planning, control and improvement of manufacturing and service processes.

Prepares students for professional careers with manufacturers, distributors, transportation carriers, logistics service providers and consulting firms. The curriculum provides the required theoretical conceptual base and analytical methods for making sound operational and strategic business decisions.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Procurement Managers
- Logistics Managers
- Procurement / Purchasing /
- Sourcing Executives
- Supply Chain Executives
- Strategic Buyers
- Demand Planners
- Shipping and Logistic Executives
- Operations Specialists
- Logistics Assistants
- Logistics Analysts

BUSINESS ANALYTICS

ABOUT THE PROGRAMME

Graduates of this programme support companies and organisations in realising the data generated from various business processes, sources and devices, which can be used to improve their speed and effectiveness in generating business insights and intelligence for optimal decision-making purposes.

Their knowledge and skills in business analytics can be used to gain insights that inform business decisions and can be used to automate and optimise business processes. Data-driven companies treat their data as a corporate asset and leverage it for a competitive advantage. Our graduates are skilful at using a number of analytical tools in such companies. Data quality skilled analysts who understand the technologies and the business and have an organisational commitment to data-driven decision-making is crucial today for a successful business, and we focus on making these skilled hybrid analysts.

As per the above features, a significant demand exists in the modern business world for the business analytics graduates. This is the discipline of applying quantitative analytical models to analyse data, particularly found in large volumes, to help make better business decisions. Successful business analytics depends on the quality data, skilled analysts who have a thorough understanding of technologies, and the organisation's commitment to data-driven decision-making. Career opportunities for business analytics graduates are thriving as major organisations have adopted data driven and technology-focused approaches.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Enterprise Content Management Consultants
- BA Strategy Consultants
- Business Intelligent and Performance Management Consultants
- Optimisation Consultants
- Enterprise Information and Management Consultants
- Business Analytics

MANAGEMENT INFORMATION SYSTEMS

ABOUT THE PROGRAMME

The application of IT in business management has become a must in the current business environment to enhance the quality of life for individuals in society. MIS provides the vital and necessary link between business and information technology and improves productivity in any business.

Solving business problems using IT is essential in the fast-moving business world. Our graduates are capable enough to support modern business organisation to achieve their goals.

Students in the modern environment should be interested in how to apply information technology to improve business and enhance the quality of life for individuals in society. Management Information Systems Degree is where business meets technology. Students will obtain the required theoretical and practical knowledge with other skills through this four-year program. With this MIS specialisation, students are introduced following areas for their careers to become business analysts, consultants, innovators and entrepreneurs. Students interested in MIS are typically good problem solvers, can handle multi-tasks, take challenges easily, always seek and initiate new projects, can handle ambiguity, like to work in teams, can see both the big-picture and work on the detail, and they will work hard for high payoff.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Enterprise Content Management Consultants
- BA Strategy Consultants
- Business Intelligence & Performance Management Consultants
- Optimising Consultants
- Enterprise Information &
- Management Consultants

QUALITY MANAGEMENT

ABOUT THE PROGRAMME

Quality Management plays a crucial role in any company's growth and performance. It is also an essential resource in the competition for customer relationships, striving to deliver a superior experience. The extensive knowledge provided by the quality management specialisation provides students with a deeper understanding of four primary areas. First, it deepens the knowledge of quality concepts (Lean Six Sigma, Toyota Production System, Lean Management, etc.). Second, it focuses on a wide range of problem-solving techniques such as Kaizen, QC Circle, DMAIC, Focused Brainstorming, Process Mapping, SIPOC Diagram, ForceField Analysis, Matrix Analysis, C&E Analysis, Failure Mode Analysis, Performance Sampling, Check Sheets, Analytical Charts, Pareto Charts, Run Charts, Multi-Vari Charts, Correlation Charts, etc. Third, concentrates on Quantitative and Qualitative Forecasting techniques.

Finally, it enlightens the ISO Standards that are mandatory in carrying out professional careers in ensuring quality in all business processes. As a result, students will be equipped with artificial intelligence and analytical tools for making sound operational and strategic business decisions in Quality Management. This specialisation offers a wide-ranging of knowledge, skills, and practical experience related with the Quality Management discipline including quality standards, quality assurance, quality control, product improvement, process control, reliability, inspection, and Total Quality Management with contemporary IT applications. A graduate of quality management discipline becomes a highly valued asset for almost any organisation. To ensure the effectiveness of management systems and to strengthen the long-term competitive position, a company must engage qualified management professionals to manage and maintain standards, as well as to conduct inspections and audit processes. Quality management experts guarantee that products and services achieve a positive reputation on the market by exceeding customers' expectations, which is critical for survival. With the recent advent of quality management now is an excellent moment to pursue a degree in this discipline, as there is a great demand for Quality Management specialists in the modern business world.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Quality Management Consultant
- Quality Management Specialist
- Corporate Quality Director
- Quality Manager
- Quality Assurance Audit Manager
- Quality Assurance Analyst
- Quality Management Executives
- Quality Control Officers – testers/inspector

BACHELOR OF BUSINESS ADMINISTRATION (HONS)

ABOUT THE PROGRAMME

Undertaking a BBA (Hons) will give you a thorough preparation for business life. The aim is to develop competence in the management of money, people, products, processes and markets. We start with broad coverage of the academic disciplines that underpin business. You have the opportunity to undertake a mixture of core and optional modules that will focus on areas such as Diversity Management, Researching and Developing a Business Plan and Corporate Governance. This wide range of skills are necessary for today's competitive workplace, so as a graduate, it will be a great advantage, offering numerous career prospects.

February / June

011 754 4801

Entry Requirements

GCE Advanced Level (Any Stream) -
3 simple passes (Local Curriculum)
Minimum 3 "D" passes (Cambridge
/ Edexcel curriculum). A pass in the
Aptitude Test conducted by SLIIT

Career Opportunities

Completion of a BBA (Hons) empowers a student to take up any challenging position in a business. The mix of modules offered in this degree programme also empowers students to become confident entrepreneurs. Graduates may find entrepreneurial opportunities as well as employment at various levels of management in multi-national and diverse organisations.

BSc (HONS) FASHION BUSINESS & MANAGEMENT

ABOUT THE PROGRAMME

BSc (Hons) Fashion Business and Management degree is offered by Manchester Fashion Institute of Manchester Metropolitan University, United Kingdom. It responds to the needs of the rapidly evolving global fashion industry, where the customer is steering businesses to think and act smarter. Successful companies are putting their customer at the heart of the brand.

Marketing, buying, merchandising, data insight, digital channels and in-store have to work together to design a service to bring about a total customer experience. This requires fashion graduates with the vision, entrepreneurial thinking, business management and marketing skill sets to be successful within this vibrant industry. The course is broad but focused on developing knowledge of the fashion industry of tomorrow, building creative thinking and commercial acumen.

Joining the BSc (Hons) Fashion Business and Management will take you on a journey that will put you at the forefront of current thinking within the fashion industry and prepare you to excel as a graduate and a future leader. Teaching and learning on the course is supported by real-world scenarios and contexts, challenging you to engage in contemporary business issues through live projects and problem-based learning. You will acquire invaluable insight into the fundamentals of global business strategy, digital-driven marketing, finance, sustainability, supply chain, data analytics and innovative entrepreneurship.

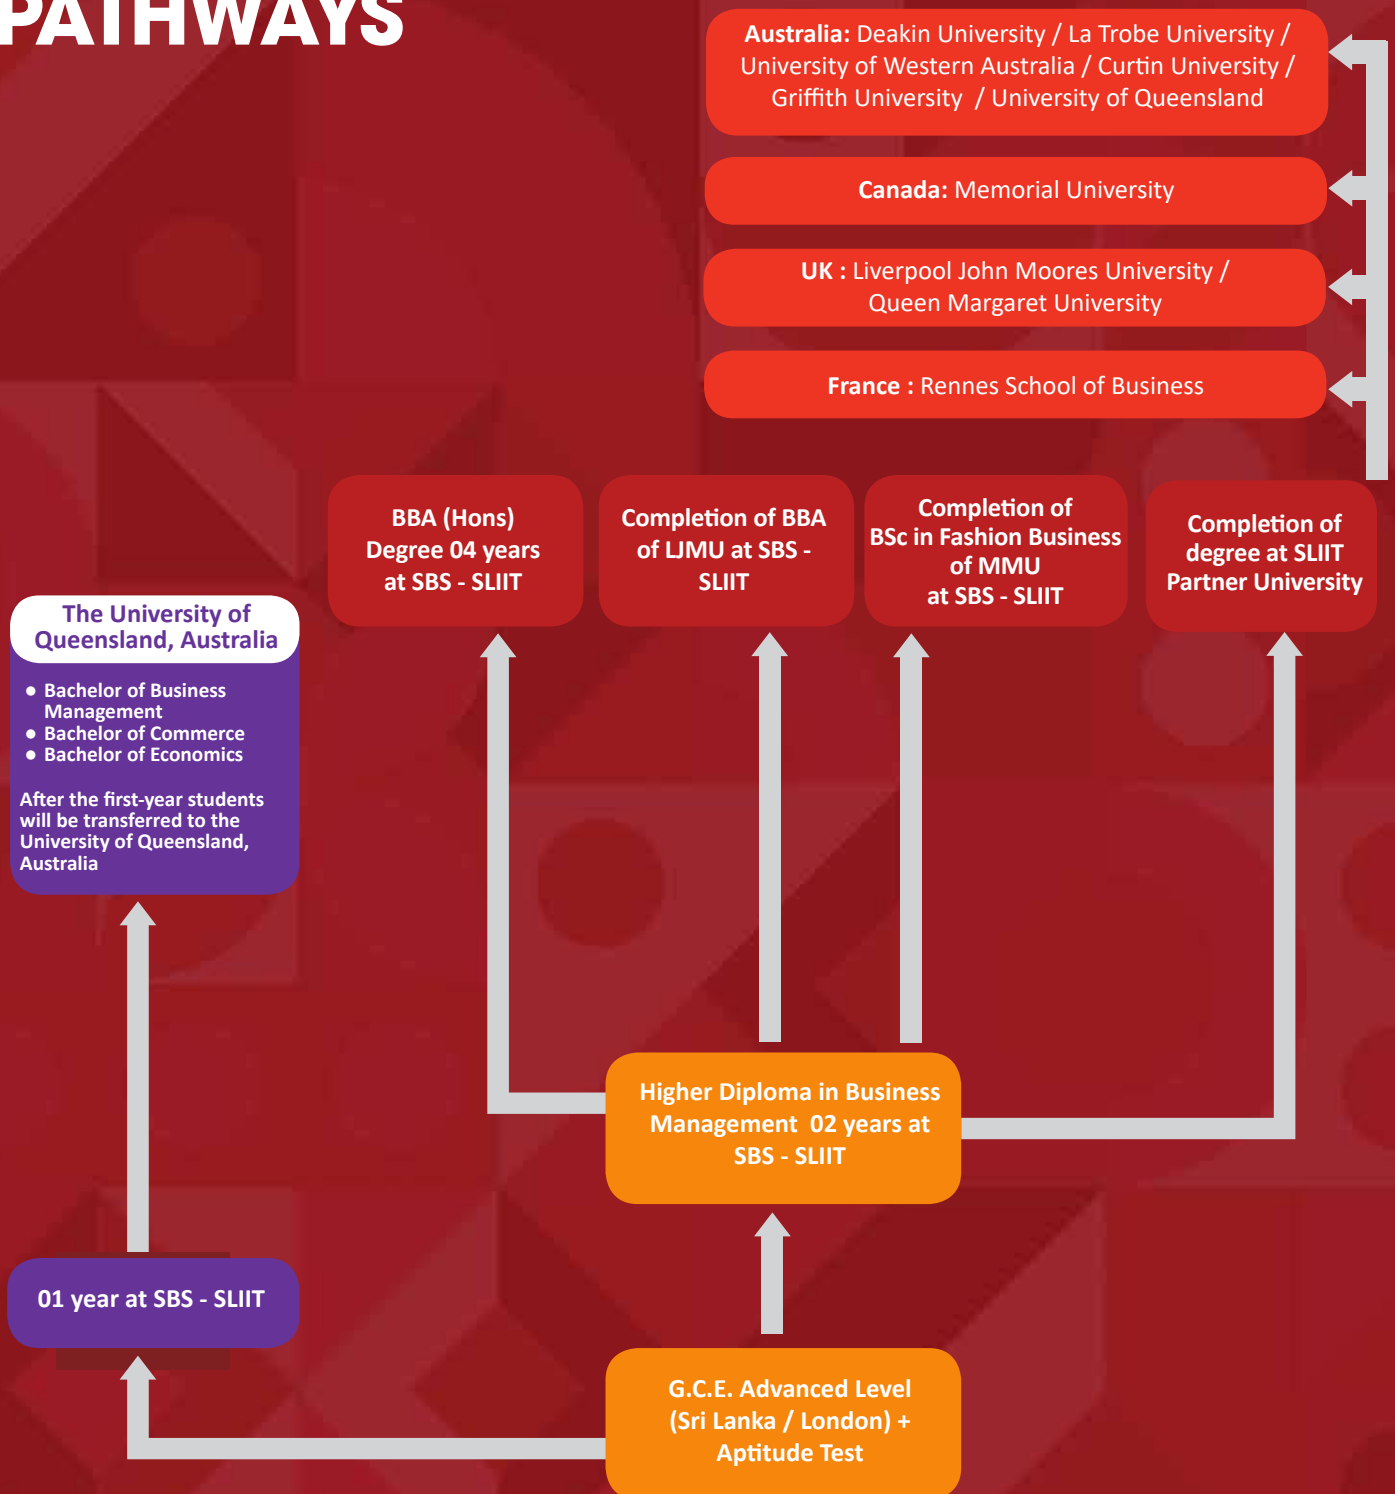

Entry Requirements

GCE Advanced Level (Local) - 3
Passes in any Stream G.C.E. Advance
Level (Edexcel / Cambridge) - 3
D passes in any stream AND
Compulsory 'B' pass in English at
the GCE Ordinary Level. A pass on
the Aptitude Test conducted by
SLIIT. Students may also apply with
pending Advanced Level Result.
(The standard entry route for the programme will
be from the SLIIT Higher National Diploma (HND) in
Business Administration and successful completion
of three fashion modules within the HND).

Career Opportunities

Graduates may consider employment opportunities in a wide variety of sectors in the fashion industry, from independent design houses to global brands and associated enterprises. Graduates will be able to enter a range of roles and functions, such as Marketing, International Brand Management, Digital Enterprise, Multichannel Management, Buying, Merchandising, Logistics and Supply Chain, Retail Management, Project Management and Strategic Management.

YOUR DEGREE PATHWAYS

SLIIT Soft Skills+

ORGANISED BY: **SLIIT BUSINESS SCHOOL**

The SLIIT Business School annually organises 'Soft Skills+', an inter-school quiz competition and soft skills workshops sparking an interest in soft skills, whilst improving general knowledge amongst school children. Though in-class lessons are valuable, soft skills such as teamwork, problem-solving, creativity and thinking out of the box are equally important. Emphasis on competitive examinations amongst secondary schools leave little time for the

development of these important skill sets: hence, the main initiative for this programme.

The event is open to students from Grade 11- Grade 13, representing state, private and international schools. All winners and participants will receive certificates and prizes. This is organised as a Corporate Social Responsibility (CSR) initiative by SLIIT Business School.

OUR STUDENTS, OUR PRIDE!

The wonderful lecture panel at SLIIT was able to build my confidence, and it has enormously helped me achieve multiple goals in my life. From a senior business analyst to a successful Entrepreneur, all credit goes to SLIIT for the confidence provoked in me by giving me a plethora of opportunities to build my professional career. Thank you SLIIT for bringing out the best in me.

Vidurangi Wijesundera

Partner/ Director at Elevaton Solutions, Customer Consultation at BRITA,UK.

The support which I encountered from the lecturers of SLIIT Business School was immensely helpful in balancing my studies and in accompanying extracurricular activities. I am forever thankful for the magnificent academic staff across the university and for their unwavering support given in providing the fundamental knowledge required for my career through the Accounts and Finance degree program which moulded me into the person I am today.

Ayeshi Azmeer Wijendran

Primary Market Analyst at LSEG in Sri Lanka

The diversity of the course content and the breadth of experience the lecturers contributed to the degree program has provided me with an enriching and life-changing experience. SLIIT has been a catalyst in helping me enhance my skills and business acumen, thus enabling me to better adapt to the disruptive changes in today's dynamic business world.

Usaith Uwize

Manager- Business Development at Hitachi Digital Payment Solutions

Always thought I had to sacrifice one of my passions to excel in another, but SLIIT made me believe otherwise. It laid the foundation for me to excel in sports, education, and my career. I was awarded SLIIT All-round Student in Sports, Best Sportswoman, and Sports Council President while obtaining a First-Class with the highest WGPA for specialization and Best Research.

COURSE MODULES

SLIIT is a pioneer in providing education in a multitude of disciplines giving students a great degree of freedom when choosing the right pathway. As such, we at the SLIIT Engineering faculty aim to instil in students the knowledge, skills and attitudes required to work in the industry as practising engineers and quantity surveyors. We are dedicated to educate and train each student to the highest standard and prepare them for employment across many levels. During their undergraduate studies, we provide them with compulsory on-the-job training, which will give them valuable hands-on experience within their respective fields of study. Our highly qualified and experienced full-time academic staff and excellent in-house state-of-the-art laboratory facilities will ensure that the students one day will leave the faculty with the best learning experience.

Our graduates will find that the qualifications they earn at SLIIT are fully recognised. All engineering degrees awarded by SLIIT are approved by the Ministry of Higher Education of Sri Lanka under the Universities Act, and our Quantity Surveying programme is offered in collaboration with highly ranked Liverpool John Moores University (LJMU), UK. Furthermore, our Engineering undergraduate curricula are prepared according to the Washington Accord Accreditation requirements through the Institution of Engineers, Sri Lanka (IESL) and will be seeking recognition by IESL soon. Moreover, our Quantity Surveying degree is seeking accreditation by IQSSL and RICS accreditation for the local delivery at SLIIT. SLIIT is also a Member of the Association of Commonwealth Universities and International Association of Universities (IAU).

The faculty of Engineering at SLIIT has partnered with the University of Queensland, which is ranked among the top 50 universities in the world, to provide interested students with the opportunity to study the first two years in Sri Lanka and complete the degree while experiencing university life at a top-ranked university during the final two years. Our programmes are flexible. For example, students are able to exit a course if faced with restrictive circumstances and rejoin the programme later (subject to relevant registration procedures). All our graduates enjoy excellent job prospects in the industry, both local and international. Many have also secured postgraduate opportunities in highly reputed universities around the world - a testimony to the excellent standards we maintain in our programs. Furthermore, the Faculty of Engineering now offers MPhil and PhD programs in Engineering which are approved by the Ministry of Higher Education, Sri Lanka. Students can obtain full or partial scholarships with stipends, on a competitive basis, to follow these programs.

CIVIL ENGINEERING

ABOUT THE PROGRAMME

Civil Engineering is a profession that deals with the design, construction and maintenance of physical infrastructure and the built environment. Civil engineering works include, design, construction, operation and maintenance of building, roads, railways, bridges, dams, reservoirs, tunnels, waterways, underground structures, ports, off-shore structures etc. The Civil Engineering course is an excellent blend of science and engineering fundamental and essential practical skills. Problem and project-based learning is a key feature of the degree programme. It enhances creative, innovative and team-work skills among students. The Civil Engineering programme at SLIIT includes project work based on laboratory experiments, literature reviews, fieldwork and seminars. Students who follow the Civil Engineering program undergo six months of compulsory industrial training at the end of their 2nd and 3rd years, split into two periods of three months each.

First year : Developing a foundation in mathematics, sciences, basic engineering sciences and practical skills.

Second year : Further expands the knowledge in mathematics, sciences, basic engineering sciences and practical skills. Design is a key feature in second year but with well-defined problems of the main domains of civil engineering, namely Structural, Geotechnical and Hydraulics. In the second-year, students will participate in a residential survey camp.

Third year : Third-year modules the complexity increases, but within a defined framework, and all subjects are from the core civil engineering domains.

Fourth year: In the fourth-year students are taught how to work on advanced open-ended design problems.

Also, students will get the opportunity to seek specialised knowledge in selected domains of civil engineering (Structural, Geotechnical, Hydraulics, Transportation, etc.) by way of technical electives. Fourth-year students will do the Civil Engineering Research and Comprehensive design projects, both cover the full year.

As contributions of civil engineers are largely to and for human society, all four years the modules are designed and executed in such a way that students will get needed practical and soft skills with an appreciation for engineering ethics. Year two and three students are given the opportunity to do Humanities modules.

Entry Requirements

Minimum two “C” passes and one “S” pass in G.C.E. A/L (Sri Lanka) in the Physical Science Stream (Combined Mathematics, Physics and Chemistry) in one and the same sitting or Minimum two “B” passes and one “C” pass in G.C.E A/L Cambridge or Edexcel covering Mathematics, Physics and Chemistry in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Structural Engineer
- Geotechnical Engineer
- Environmental Engineer
- Water Resources Engineer
- Design Engineer/Consulting engineer
- Contracting Engineer
- Engineering Project Manager
- Building Services Engineer
- Irrigation Engineer
- Coastal Engineer
- Infrastructure Planning Engineer
- Engineering regulators
- Quality control and quality assurance Engineers
- Marketing Engineers
- Academic and Researcher

Engineers may also establish their own consultancy practices, manufacturing or construction firms, and also be employed internationally.

ELECTRICAL & ELECTRONIC ENGINEERING

ABOUT THE PROGRAMME

With a strong focus on building theoretical and practical based study, the BSc Engineering Honours in Electrical & Electronic Engineering provides appropriate technical knowledge in Electrical & Electronic Engineering, including hands-on experience in practical scenarios. The degree programme is structured also to gain interdisciplinary problem-solving skills, social awareness and confidence required to build outstanding, high-caliber engineers. The curriculum of BSc Engineering Honours in Electrical & Electronic Engineering is developed in close consultation with the industry, so that the graduates are well-suited to the demands of the industry. The students will also gain the essential skills expected in the industry.

First two years: Develops a foundation in mathematics, sciences, basic engineering sciences and practical skills.

Third year: Focuses on the application of Electrical & Electronic Engineering exposing students to real life engineering challenges.

Final year: Mainly focused on exposure to real electrical and electronic systems deployed in the industry. Essential soft skills such as technical communication, presentation skills and non-engineering aspects, such

as legal, personal, management and business essentials are taught to comply with the professional engineering requirements of the curriculum. Comprehensive project modules in the 4th year assesses the competency in conducting research, the practical ability and the professionalism of the student. Students may choose subjects from the following specialised areas in the final year:

- Electronic Engineering
- Electrical Engineering

Entry Requirements

Minimum two “C” passes and one “S” pass in G.C.E. A/L (Sri Lanka) in the Physical Science Stream (Combined Mathematics, Physics and Chemistry) in one and the same sitting or Minimum two “B” passes and one “C” pass in G.C.E A/L Cambridge or Edexcel covering Mathematics, Physics and Chemistry in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Electrical Engineer
- Electronics Engineer
- Computer Systems Engineer
- Network Engineer
- Design Engineer
- Control and Instrumentation Engineer
- Broadcast Engineer
- Automation Engineer
- Aerospace Engineer
- Academic and Researcher

Engineers may also establish their own consultancy practices, manufacturing or construction firms, and also be employed internationally.

MATERIALS ENGINEERING

ABOUT THE PROGRAMME

Material engineering has played such an important role in the development of society that many of the modern advancements would not have been possible without it. New materials have been developed all the time which has helped develop new products and produce novel technologies to improve almost every aspect of human life.

Materials engineers provide material solutions for engineering problems. They study the structure, properties and behaviour of materials, develop processes for manufacture and explore new ways to recycle and dispose of products. Materials engineers examine how material properties depend on the microscopic structure and apply their expertise to select the most suitable material for a product.

Materials engineering is a truly interdisciplinary field of study combining many specialisations such as chemistry, physics, mathematics and engineering. The honours degree being offered covers all key areas of materials engineering to prepare graduates for the competitive global economy and open doors to exciting career opportunities. The programme is delivered by highly qualified lecturers and is supported by tutorials, laboratory work, projects, field visits and an industrial training programme.

Year 1: Developing a foundation in mathematics, sciences, basic engineering sciences and practical skills.

Year 2: In addition to expanding on mathematics and engineering subjects, core materials engineering modules are introduced.

Years 3 - 4: A more focussed materials engineering curriculum is followed, with the option of electing highly specialised modules in the 4th year. A comprehensive materials related project is undertaken in the same year.

Entry Requirements

Minimum two "C" passes and one "S" pass in G.C.E. A/L (Sri Lanka) in the Physical Science Stream (Combined Mathematics, Physics and Chemistry) in one and the same sitting or Minimum two "B" passes and one "C" pass in G.C.E A/L Cambridge or Edexcel covering Mathematics, Physics and Chemistry in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Materials Engineer
- Metallurgist
- Polymer Engineer
- Ceramic Engineer
- Composite Engineer
- Materials Development Engineer
- Materials Processing Engineer
- Research and Development Engineer
- Failure Analysis Engineer
- Quality Assurance Engineer
- Semiconductor Processing Engineer
- Materials Performance Engineer
- Corrosion Engineer
- Materials Design Engineer
- Academic and Researcher

Engineers may also establish their own consultancy practices, manufacturing or construction firms, and also be employed internationally.

MECHANICAL ENGINEERING

ABOUT THE PROGRAMME

Mechanical engineering is the study and development of machines and systems that have useful applications. Mechanical engineers apply the principles and problem solving techniques of engineering from design to manufacture and marketplace for any product or solution. Mechanical engineering involves systems that use principles of motion, energy, and force ensuring the designs to function safely, efficiently, and reliably at a competitive cost. It is a highly diversified field of engineering. It involves areas such as mechanics, thermodynamics, combustion and energy systems, aerodynamics and fluid mechanics, design and manufacturing and mechatronics.

The mechanical engineering degree has a set of state-of-the-art subjects intended to provide the required knowledge and hands-on skills. The degree programme includes lectures, labs, engineering design work and projects. The Mechanical curriculum has been designed in consultation with the industry and academic experts in the field. Hence, the graduates could pursue careers in both academia and industry.

First Year: Provides a foundation in mathematics, sciences, basic engineering sciences and practical skills.

Second Year : Provides the mathematical background together with core engineering subjects with an introduction to mechatronics. After the 2nd year students will undergo industrial training to see how engineering is applied in industry.

Third Year: Students will further specialise in mechatronics and mechanical engineering subjects.

After the 3rd year students will undergo their second industrial training.

Fourth Year: Students will further specialise in the area of mechatronics. They will also learn about the engineering profession, management and marketing. A comprehensive research project will be undertaken by the students to apply the knowledge they acquired during the course.

Entry Requirements

Minimum two “C” passes and one “S” pass in G.C.E. A/L (Sri Lanka) in the Physical Science Stream (Combined Mathematics, Physics and Chemistry) in one and the same sitting or Minimum two “B” passes and one “C” pass in G.C.E A/L Cambridge or Edexcel covering Mathematics, Physics and Chemistry in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Mechanical Engineer
- Automobile Engineer
- Automation Engineer
- Maintenance Engineer
- Design and Manufacturing
- Thermal Engineer
- Industrial Engineer
- Entrepreneur
- University Lecturer
- Researcher

Engineers may also establish their own consultancy practices, manufacturing or construction firms, and also be employed internationally.

MECHANICAL ENGINEERING (MECHATRONICS)

ABOUT THE PROGRAMME

Mechatronics is the synergistic integration of mechanics, electronics and computer engineering towards developing automated products and systems. Mechatronic Engineers provide solutions to robotics, automated manufacturing, smart products and other contemporary engineering problems. It is a very modern and emerging area of engineering. Through mechatronics, students gain specialised knowledge of robotics, industrial automation, sensors, instrumentation, control systems and artificial intelligence. Mechatronic engineers possess a broad multidisciplinary knowledge of engineering together with hands-on skills to implement such systems.

Mechatronics Specialisation in Mechanical Engineering has a set of state-of-the-art subjects intended to provide the required knowledge and hands-on skills. The degree programme includes lectures, labs, engineering design work and projects. The Mechatronics curriculum has been designed in consultation with the industry and academic experts in the field. Hence, the graduates could pursue careers in both academia and industry.

Year 1: Provides a foundation in mathematics, sciences, basic engineering sciences and practical skills.

Year 2: Provides the mathematical background together with core engineering subjects with an introduction to mechatronics. After the 2nd year students will undergo industrial training to see how engineering is applied in industry.

Year 3: Students will further specialise in mechatronics and mechanical engineering subjects. After the 3rd year, students will undergo their second industrial training.

Year 4: Students will further specialise in the area of mechatronics. They will also learn about the engineering profession, management and marketing. A comprehensive research project will be undertaken by the students to apply the knowledge they acquired during the course.

Entry Requirements

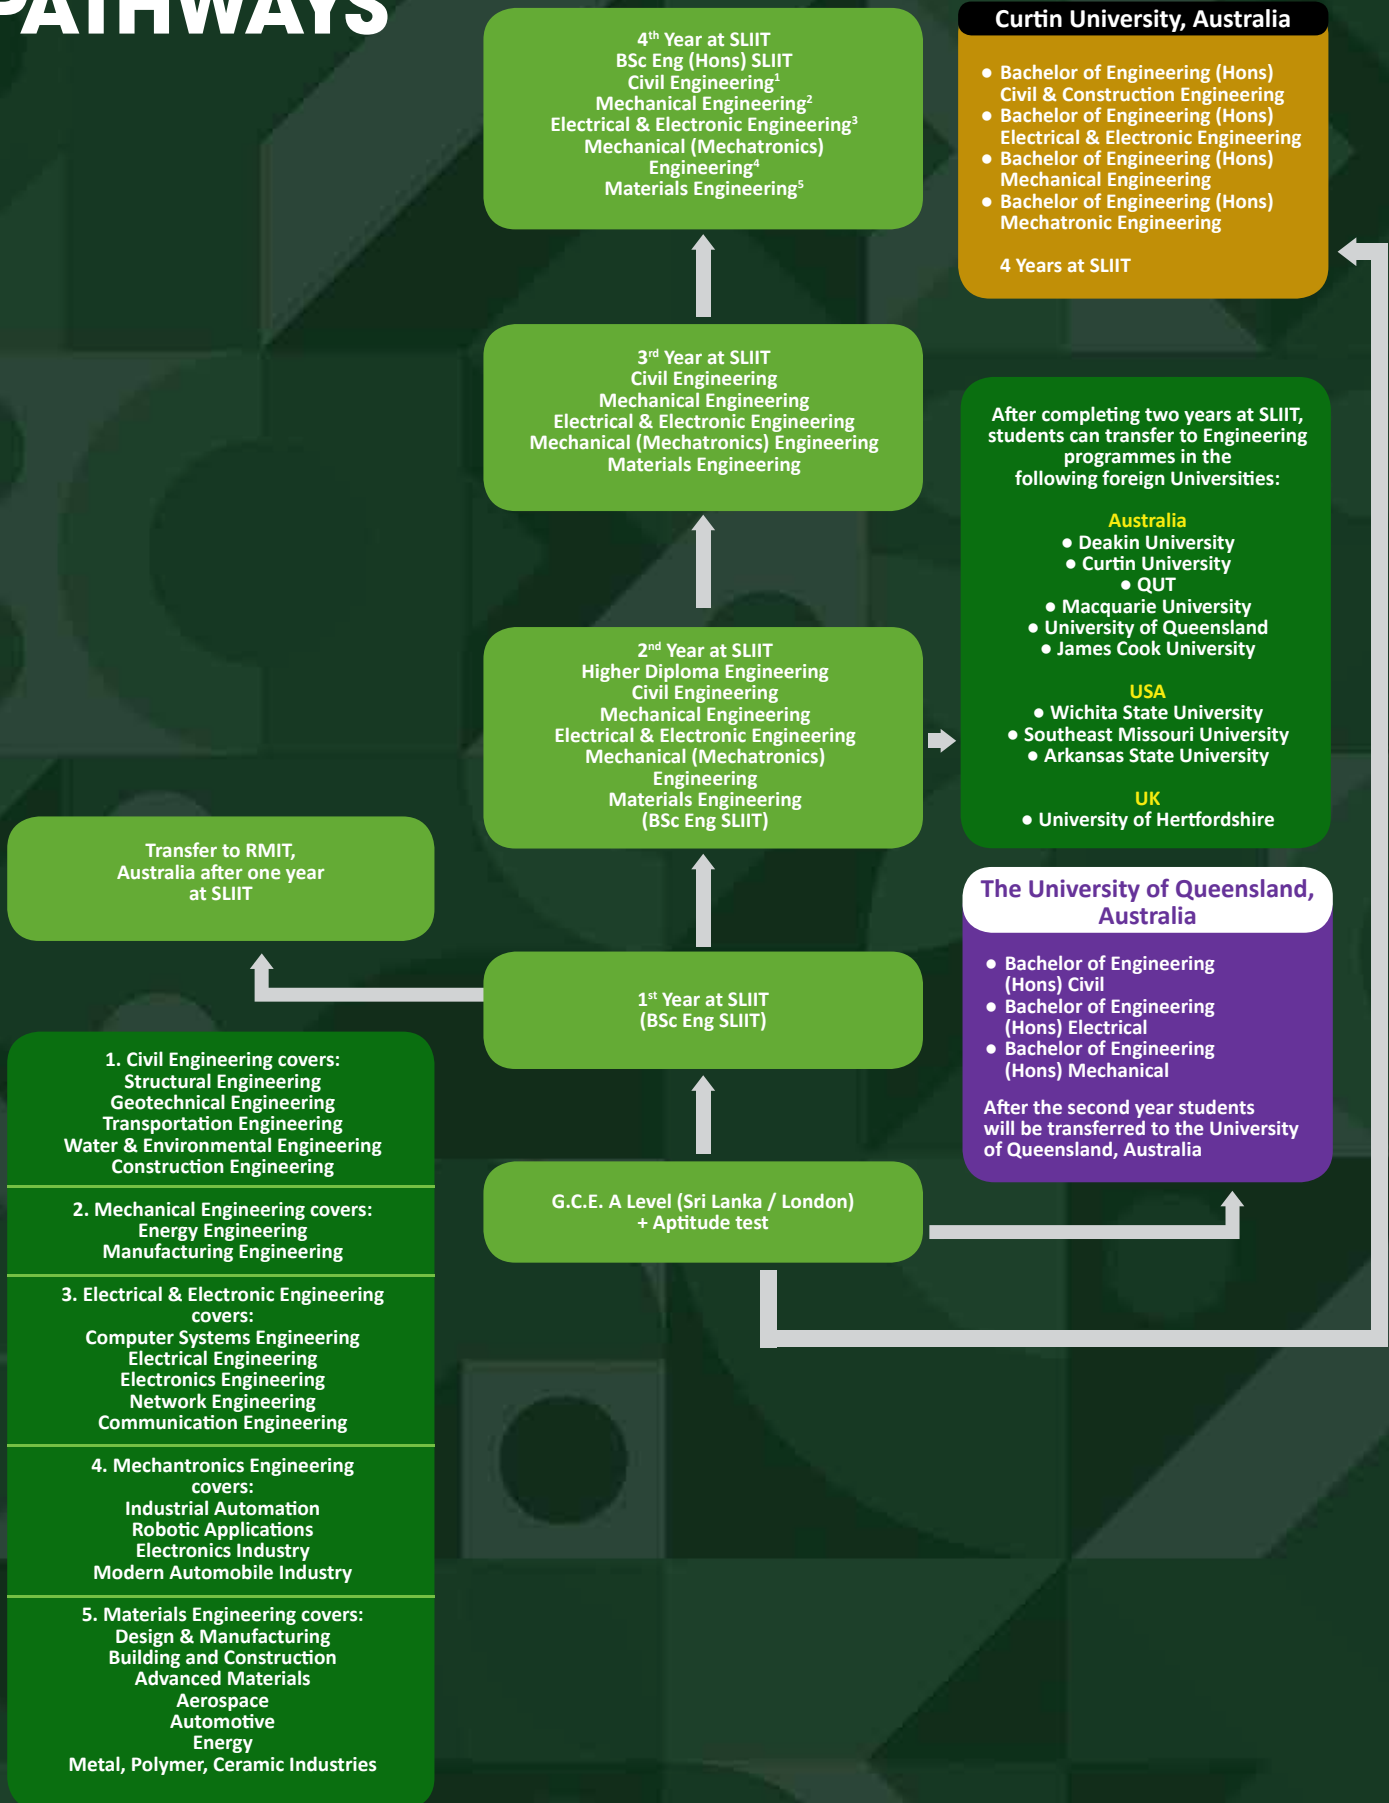

Minimum two "C" passes and one "S" pass in G.C.E. A/L (Sri Lanka) in the Physical Science Stream (Combined Mathematics, Physics and Chemistry) in one and the same sitting or Minimum two "B" passes and one "C" pass in G.C.E A/L Cambridge or Edexcel covering Mathematics, Physics and Chemistry in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Mechanical Engineer
- Robotics Engineer
- Electronics Design Engineer
- Automation Engineer
- Instrumentation Engineer
- Control Systems Engineer
- Data Scientist/Big Data Analyst
- Software Engineer
- Entrepreneur
- University Lecturer
- Researcher

Engineers may also establish their own consultancy practices, manufacturing or construction firms, and also be employed internationally.

YOUR DEGREE PATHWAYS

ORGANISED BY: **FACULTY OF ENGINEERING**

ROBOFEST is the annual robotic competition which involves one of the most important academic aspects of the Department of Electrical and Electronic Engineering of SLIIT. The main goal of SLIIT ROBOFEST is to inspire and give future minds the opportunity in designing, building and adapting to the new technologies with the advancements and evolutions of the world of robotics enhancing their theoretical and practical knowledge. The competition was initiated in the year of 2010 where the participants were limited to the students of SLIIT, and afterwards it was expanded under 3 categories; School, University and Open, opening up opportunities for anyone who is interested in the competition to participate.

The school category was conducted across two levels. Over 100+ entries were received, and the organisers provided a technical document including instructions and guidelines for participants to create a simple robot and submit a video. Places for the University category were hard-fought and not awarded. Robofest 2022 for the 13th consecutive year, with standards of an international level competition. SLIIT ROBOFEST is recognised as the premier robotic competition in Sri Lanka. This year's event was no exception, with record participants vying to demonstrate their talents. In addition, the competition provided youth with an unparalleled platform to learn, showcase and nurture their AI and tech-related skills.

In collaboration with

BSc (HONS) QUANTITY SURVEYING

ABOUT THE PROGRAMME

The study programme will cover subject areas ranging from measurement, estimating and costing, cost management, contract administration, contract law, construction technology, project management, building information modelling and quantity surveying practice. The teaching staff will consist of experienced academics and professional Quantity Surveyors, Engineers, and other high-calibre subject specialists.

The LJMU degree in Quantity Surveying will open up many other professional avenues for graduates. This degree will also allow entry to Masters programmes in areas such as Contracts and Dispute Resolution, Procurement Advising and Consultation, and Project Management.

Entry Requirements

Minimum 3 'S' passes in G.C.E A/L (Sri Lanka) or a minimum 3 'D' passes in G.C.E A/L Cambridge or Edexcel from Physical Science stream in one and the same sitting AND Compulsory 'C' pass for English at GCE O/L (Sri Lanka/ Edexcel / Cambridge) and a pass on the Aptitude Test conducted by SLIIT OR Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 'D' passes in G.C.E A/L Cambridge or Edexcel from Biological Science/ Commerce or Engineering Technology streams in one and the same sitting AND Compulsory 'B' pass for Mathematics and 'C' pass for English at GCE O/L (Sri Lanka/ Edexcel/ Cambridge) and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

The Quantity Surveyors are primarily sought for their expertise in cost management in building and civil engineering projects. However, their wide breadth of skills and knowledge has opened many other career prospects, such as project managers, financial advisors, contracts administrators, procurement advisers, and information managers.

OUR STUDENTS, OUR PRIDE!

I personally experienced that the Civil Engineering curriculum at SLIIT is comprehensive and versatile, which ensures a smooth transition from undergraduate studies to graduate studies. The strong foundation laid by SLIIT helped me to reach great heights in my academic and professional life.

.....

Randula Senarathbandara

PhD Student/Research Assistant University of Manitoba, Canada

As an Engineer, I believe that "Innovation is the key to success". SLIIT opened the door for me to enter the path of design and innovation. From many degree programs offered at SLIIT, I selected the Mechanical Engineering program affiliated with the Curtin University of Australia. This also helped me to become a graduate member of Engineers Australia.

Thinking back, all these opportunities I have received to make the world a better place was thanks to the exposure and strength given to me by SLIIT. Without a doubt, I can say that SLIIT laid a strong foundation for my career as an Engineer.

.....

Yasiru Senanayake

Manager Engineering
3D Concept Studio Private Limited

My decision to select SLIIT for my BSc degree in Electrical and Electronic Engineering has been a valuable turning point in my life. The vast amount of academic and practical knowledge given over a period of 4 years have been of great help for my successful career journey. Proper guidance offered by the experienced lecture staff have helped me perform outstandingly in the competitive industry and come a long way in a fulfilling career, along with many achievements. My gratitude will always be to the amazing lecturers and the staff for building an accomplished career and helping me to grow into a respected member in the profession.

BSc (HONS) IN FINANCIAL MATHEMATICS AND APPLIED STATISTICS

ABOUT THE PROGRAMME

Mathematics is the foundation of the financial world. It allows investors, traders, and bankers to make optimal decisions and mitigate risk in a rational way. Financial Mathematics is the application of mathematical models to solve various financial issues and in particular to find solutions when we have to face different risk factors. Applied Statistics is the application of statistics to derive inferences and solve real problems in business based on data collected from samples in order to apply to the population. Thus, the combination of Financial Mathematics and Applied Statistics can be considered as one of the corner-stones of the financial world. On the other hand, the financial industry is one of the largest and most data-driven sector in the world, irrespective of the level of development of the country. This happens to be the industry that demands graduates possessing diverse quantitative skills with deep knowledge of mathematics, statistics and their applications complemented by the background knowledge in finance, economics, and computing. Furthermore, employment opportunities for such graduates in the financial sector has been projected to grow 18% annually since 2019 and these graduates can earn money with less stress. The graduates with sound knowledge of Financial Mathematics and Applied Statistics would become the key persons in any the financial industry as all decisions are based on the risk models developed by them.

WHY CHOOSE?

- This Honours degree programme is a unique one available in non-state universities which has been designed for those who are interested in learning about some of the recent applications of mathematics and statistics to the financial sector and pursuing a career as actuary. It enables you to acquire a working knowledge of models and procedures and modern financial mathematics as it is applied in banks, broker companies, insurance companies, the financial departments of national and international companies etc. to solve their problems faced due to various risk factors.
- There is a growing need for graduates of Financial Mathematics and Applied Statistics who can put their specialist skills to use in creating new and innovative tools and systems and solving various types of risk faced by finance and insurance companies.
- Financial Mathematics and Applied Statistics will give you

a broad introduction to the methods and ideas of mathematical finance and will prepare you for easy employment in the financial sector. These jobs are highly paid in all countries in the world but has less stress.

- The core values of the degree are (i) professional, (ii) responsive, (iii) creative, (iv) inspiring and (v) collaborative.
- Easy to enrol for higher degrees under different field such as data science, business analytics, financial mathematics, actuarial science, statistics etc., in top-ranking universities in the world.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) covering Combined Mathematics & Physics or minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel covering Mathematics & Physics in one and the same sitting and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Actuarial Analysts
- Business Analysts
- Budget Analysts
- Enterprise Risk Actuaries
- Financial Analysts
- Insurance Underwriters
- Insurance Claims Adjusters
- Insurance Actuaries
- Investment Banker
- Life Insurance Actuaries
- Property and Casualty Insurance Actuaries
- Pension and Retirement Benefits Actuaries

BSc (HONS) IN BIOTECHNOLOGY

ABOUT THE PROGRAMME

Faculty of Humanities and Sciences offers BSc (Hons) in Biotechnology for those who wish to pursue a career in the biotechnology industry. The programme provides appropriate theoretical and practical knowledge through lectures, laboratory experiments and research, industrial experience, field visits and internships programme.

WHY CHOOSE?

- The Academic Staff - The degree programme staff is both experienced and contemporary, with many years of teaching at National and International Universities.
- The degree has been listed, first and foremost, locally developed and accredited/ approved by the Ministry of Higher Education /UGC and offered in a non-state institute (SLIIT).
- Plant Agriculture, Animal Agriculture, Environmental Management, Food Innovation, Bioinformatics, Genomics/Proteomics, Genetic Engineering, Molecular Biology/ Microbiology, Healthcare/Beauty care/ Pharmaceuticals and Diagnostics.
- Development of advanced modules, teaching and research practicums, and electives allowing students to take ownership of their own learning to meet their individualised goals in more focused areas of practice.
- Breadth and depth of industry affiliations, nationwide - helps internship, research projects and career opportunities.
- A curriculum that reflects hours of instruction to afford a more independent learning environment.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or minimum 3 "D" passes in G.C.E A/L Biology stream, Cambridge or Edexcel covering Biology and Chemistry in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Scientists
- Academics -Lecturers, Professors
- Managers in the Medical Laboratories
- Molecular Biologists in Veterinary science
- Drug Designing Scientists
- Plant Molecular Biologists
- Molecular Plant Breeders
- Nutritional Biotechnologists
- Bioinformaticians
- Forensic Biotechnologists
- Marine Biotechnologists
- Entrepreneur in Biotechnology Industry

BEd (HONS) IN PHYSICAL SCIENCES

ABOUT THE PROGRAMME

The BEd (Hons) in Physical Sciences is a four-year full-time degree programme. In the four years of study, we provide a balance between both theoretical and practical the essence of Physics, Mathematics and Education related subjects. This degree runs alongside courses focusing on developing educational skills essential for teaching Physics and Mathematics at the secondary schools, including Advanced Level classes. Our Bachelor of Education graduates are sought after by both public and private sector institutions and will be acceptable locally and globally.

WHY CHOOSE?

- Be a Professional teacher in Physics and Mathematics.
- 10 weeks of teaching practicum in a school setting.
- Covers the contents related to education in PG Diploma in Education in addition to Physics and Mathematics.
- Taught in English medium, which opens postgraduate pathways.
- Opportunities in state schools, international schools, overseas schools and private tuition.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) in the Physical Science Stream including Mathematics (Combined Mathematics or Higher Mathematics) and Physics or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel, including Mathematics and Physics in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- English medium teaching opportunities in State and Private sector
- University Lecturers
- Sri Lanka Education Administrative Service Officers
- Overseas teaching opportunities
- Project officers in Educational projects funded by the International Organisations

BEd (HONS) IN BIOLOGICAL SCIENCES

ABOUT THE PROGRAMME

The BEd (Hons) in Biological Sciences is a four-year full-time degree programme. This degree demonstrates command and understanding of the subject matter related to Biology and Chemistry disciplines and teaching principles to exhibit professional competence in teaching Biology and Chemistry for secondary classes including Advanced Level. The graduates will be able to utilise different generic skills in teaching and learning and display commitment to teaching with a professional and ethical attitude with a global perspective.

WHY CHOOSE?

- Be a Professional teacher in Biology and Chemistry.
- 10 weeks of teaching practicum in a school setting.
- Covers the contents related to education in PG Diploma in Education in addition to Biology and Chemistry.
- Taught in English medium, which opens postgraduate pathways.
- Opportunities in state schools, international schools, overseas schools and private tuition.

Entry Requirements

Minimum 3 “S” passes in G.C.E A/L (Sri Lanka) or Minimum 3 “D” passes in G.C.E A/L Cambridge or Edexcel, including Biology & Chemistry in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- English medium teaching opportunities in State and Private sector
- Lecturers in Noncommissioned Officer Education System
- University Lecturers
- Sri Lanka Education Administrative Service Officers
- Overseas teaching opportunities
- Project officers in Educational projects funded by the International Organisations

BEd (HONS) IN ENGLISH

ABOUT THE PROGRAMME

The BEd (Hons) in English is a four-year full-time degree programme. This programme is aimed at developing professional teachers to teach English as a subject in secondary schools up to GCE Advanced Level. It provides a balance between the disciplines of English Language, Literature and Education studies. The initial two years of the study programme intend to lay a solid foundation in the field of English Language, English Literature and Education studies while the last two years focus more on the practical aspects of teaching English Language and Literature. The students are expected to engage in a compulsory teaching practice session of at least 10 weeks in a school setting, in addition to conducting a research study; as requirements for the completion of the degree programme. The programme thus ensures that the students develop a thorough subject knowledge and obtain adequate training and practice in teaching English in order to become professionally qualified, competent teachers of English.

WHY CHOOSE?

Upon successful completion of the programme, students will be able to :

- Gain a recognized and accredited (by UGC Sri Lanka) qualification to teach English
- Obtain a thorough knowledge on English Language, English Literature and Teaching English as a Second Language (TESL)
- Transfer (upon completion of 2 years) to Algoma University, Canada or Essex University, UK to graduate from the respective university (2+2 study arrangement) with a Bachelor's degree in English
- Pursue post-graduate studies in language and / or education

Entry Requirements

Local A/Ls : Minimum of 3 "S" passes in any subject stream with English as a Main Subject OR minimum of 3 "S" passes in any stream in English Medium obtained in one and the same sitting AND a pass obtained at the Aptitude Test conducted by SLIIT.
Cambridge/Edexcel A/Ls : minimum of 3 "D" passes in any Stream obtained in one and the same sitting AND a pass obtained on the Aptitude Test conducted by SLIIT.

Career Opportunities

- English language and Literature teaching in state and private schools locally and in foreign countries
- Teaching English in higher education (Universities and other tertiary education institutions) locally and abroad
- Administrative and management positions in State and Private educational institutions
- Project officers in education related projects funded by local and international organizations

BSC (HONS) PSYCHOLOGY

ABOUT THE PROGRAMME

There is an increasing global need for trained professionals in the field of psychology. Psychology and its teachings can be applied in many day-to-day life settings, and trained professionals are able to apply the findings and principles of psychology effectively in diverse fields. An individual with a Psychology degree has the option of opting for postgraduate level studies or to work within and outside of psychology depending on their interests and skills. Individuals with postgraduate level qualifications will be eligible to engage in rewarding careers as psychologists in specialised sub-disciplines in psychology.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and a pass on the Aptitude Test and interview conducted by the School of Psychology, SLIIT.

Career Opportunities

- Clinical Psychologist
- Counseling Psychologist
- Psychotherapist
- Marital & Family Counselor
- Psycho-social Worker
- Mental Health Researcher
- Addiction Counselor
- Child Psychologist
- Educational Psychologist
- School Counselor
- Special Needs Teacher
- Early Childhood Specialist
- Business Psychologist
- HRM Consultant
- HR Researcher
- Marketing Strategist
- Ergonomics Specialist
- Corporate Trainer
- Brand Consultant

LIVERPOOL
JOHN MOORES
UNIVERSITY

LLB (HONS) LAW

ABOUT THE PROGRAMME

The Faculty offers a fully-franchised LLB (Hons) Law programme in affiliation with the Liverpool John Moores University, UK to provide students with a competitive qualification, they would need to pursue employment in the field of law and legal studies. Liverpool John Moores University's LLB(Hons) Programme offered at SLIIT is a complete UK degree which seeks to transform undergraduates into legal professionals who can compete not only locally but also globally. The 3-year degree programme consists of core modules which give students a firm grasp of the fundamentals of English law, and optional modules which give students an opportunity to acquire knowledge about specialised areas of law, such as human rights, commercial law, international law etc. The degree offers a variety of industry focused modules such as clinical legal education, mediation skills and practice, negotiation skills and practice that allow students to gain specialist skills and knowledge required for successful careers in the legal field.

WHY CHOOSE?

- Obtain a LLB from World Ranking UK University, here in Sri Lanka
- Open pathways in becoming globally recognized legal professional
- Become a lawyer in Sri Lanka as well as United Kingdom
- Focuses not only on the legal knowledge but also on skill development through practice oriented modules like Mooting and Clinical Legal Education (Law Clinics)
- Opportunities for various specializations as Human Rights, Commercial Law and International Law.
- Learn from highly qualified and experienced panel of lecturers in a university environment

SICASH

SLIIT INTERNATIONAL CONFERENCE ON
ADVANCEMENTS IN SCIENCES & HUMANITIES

ORGANISED BY: **FACULTY OF HUMANITIES & SCIENCES**

SLIIT International Conference on Advancements in Sciences and Humanities (SICASH), organised annually by the Faculty of Humanities and Sciences, SLIIT is a multidisciplinary research conference, which brings together researchers from a broad range of disciplines coming under the umbrellas of natural sciences and humanities. Featuring seven tracks under the areas of Natural Sciences, Education, Law, English Language and Literature, Psychology, Nursing and Health Science, and Mathematics and Statistics, it provides a forum for local and international researchers to present and share their latest research findings, and network with peers and experts from their respective disciplines. Papers

submitted to the conference are subject to stringent review by a panel of discipline experts to ensure quality and standard. The conference papers selected for oral presentations are published in the conference proceedings, while a select few are published in the journal of the Faculty of Humanities and Sciences. The conference was held for the third consecutive time in October 2022 with the participation of a large number of academics, students, researchers, and discipline experts, and was commended by all attendees for the high quality of the research presented and the contribution made to dissemination of knowledge.

OUR STUDENTS, OUR PRIDE!

Being a student of SLIIT has opened countless doors for me, both academically and professionally. I consider myself extremely lucky to have a wonderful panel of lecturers who are helping me to achieve my dreams of becoming a psychologist, while striving to be the best possible version of myself.

.....

Oshadi De Silva Nagahawatta

3rd Year - BSc (Hons) Psychology

SLIIT was my first choice when considering my higher education as it provided an array of highly recognized degree programs conducted by an exceptionally qualified panel of Lecturers. Moreover, during my time at SLIIT the Lecturers were nothing but encouraging and supportive , creating a student friendly environment.

SCHOOL OF ARCHITECTURE

SLIIT School of Architecture was established in 2016 with the intention of producing architecture graduates of the highest calibre who are creative, world class and are sort after by the industry and clients due to their high skill levels and professionalism. Both the BSc (Hons) degree in Architecture and the MSc degree in Architecture are presently offered at SLIIT in collaboration with Liverpool John Moores University in UK. While this provides our students with an international platform and exposure, one of the key focuses of the SLIIT architecture program is also to foster the Sri Lankan Identity in Architecture. Students are given a solid base by exposure to Sri Lankan architecture and heritage through the most eminent experts in academia while also exposing them to international standards of working, current technologies and global knowledge of architecture and its practices.

BSC (HONS) ARCHITECTURE

ABOUT THE PROGRAMME

Architecture is an art, a vocation, it is also a science, a business and a passion for life. Helping the man-made environment harmonise with the natural environment. Architects create a legacy for future generations that embody the culture and traditions of the era. This professional pathway is ideal for creative people with sensitivity, imagination and an ability to appreciate the technical aspects of building and construction. An architect is ultimately responsible for determining the aesthetics and functionality of the living environment; therefore, it is essential that an architectural education develops attributes in students which incorporate knowledge, skills and sensitivity. These skills will be imparted and diligently assessed during the course of your architectural journey at SLIIT.

RESOURCES AND FACILITIES: The programme is directed and conducted by a team of dedicated and eminent Chartered Architects, academics and subject specialists for each module. Students enjoy designated individual work spaces in modern studio environments to which they have 24-hour access. The lecture rooms, computer labs, printing and technology workshops at SLIIT provide an international standard study environment.

Entry Requirements

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel in any subject stream (preferably in Biology, Mathematics or Engineering Technology) AND Compulsory 'C' passes in Mathematics and English at the GCE Ordinary Level (Sri Lanka / Edexcel / Cambridge) in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

Career Opportunities

- Professional Architect
- Urban Designer
- Town and Country planner
- Landscape Architect
- Interior Designer
- Archaeologist
- Conservation and Project Manager

BA (HONS) INTERIOR DESIGN

ABOUT THE PROGRAMME

This programme gives you the opportunity to work on a range of authentic architectural projects with input from practising architects and interior design specialists in a dynamic studio environment with access to industry-standard technical facilities. The emphasis of this programme is the creative adaptation, repurposing, remodelling, rebranding, restyling and refitting of existing buildings. Taught principally through a studio environment that is seamlessly underpinned and informed by lectures and workshops, the over-arching ambition is to create graduates with artistic flair and who are technically skilled and grounded in the demands of the profession. The learning and teaching environment is progressively informed by research in pedagogy in the creative field. While teaching the curriculum, the programme also develops less tangible skills in students, such as communication, presentation and self-motivation; a key ambition is to create independent thinkers adept at resolving problems with creativity and originality. A broad educational experience is offered within which students can develop diverse rigorous, and creative approaches to design issues that explore and test appropriate resolutions in relation to contemporary and anticipated contextual issues. Design projects form the backbone of the core teaching strategy. These projects are seen as primers to a divergent creative and critical thought process: they are characterised by individual interpretation and interest in the subjects that encourage imaginative solutions through discursive studio forums. As you progress through the degree, the design projects gradually become more complex and ambitious in their intentions and integrative in their nature. At degree level, predominantly, the city of Liverpool is used as a contextual laboratory to test concepts that have a local flavour with global implications. The aim is to develop graduate skills and knowledge such that you become an autonomous thinker who is capable of analysing, visualising and testing potential solutions to increasingly complex spatial and social issues within an increasingly holistic global scenario.

Entry Requirements

GCE Advanced Level Examination (Local) - 3 passes in any stream.
GCE Advanced Level Examination (Ed-excel/Cambridge or equivalent) - 3 passes in any stream (with minimum 3 D passes or equivalent of minimum 5 points). Successful candidates will be selected through an aptitude test (followed by an interview if required) conducted by the SLIIT School of Architecture.

Mature entry:

Applications from mature students without sufficient formal qualifications will be considered on an individual basis related to experience and/or portfolios of work. Applicants may be required to attend an interview. Applicants will be required to pass the 'Aptitude Test' conducted by the SLIIT School of Architecture in order to be admitted.

- Sous Chef
- Chef de partie
- Kitchen Chef
- Qualified Cook
- Commis Chef

PATISSERIE

ABOUT THE PROGRAMME

Indulge your passion for the sweet life by becoming a professional in the delicious art of the patissier or pastry cook and business owner. This specialised course offers the opportunity to learn unique skills of professional gateaux, pastries and restaurant desserts. Specialised units include petits fours, pastries, breads and artisan skills in chocolate and sugar decorations.

.....
Course Code : SIT40716
.....

Certification : Certificate IV in Patisserie issued by William Angliss Institute Melbourne, Australia.

.....
Course Developer : Developed by Australian Skills Quality Authority (ASQA) and conceptualised by William Angliss Institute.
.....

Entry Requirements : 5 Passes in O/Level, including English
.....

Offered : Full time

Career Opportunities

- Business Owner
- Executive Pastry Chef
- Pastry Sous Chef
- Pastry Chef
- Pastry Cook
- Assistant Pastry Chef

EVENT MANAGEMENT

ABOUT THE PROGRAMME

Coordinate real events for real clients. Learn how to plan, fund, market and manage successful events - everything from international sporting events to celebrity weddings.

.....
Course Code : SIT50316
.....

Certification : Diploma in Event Management issued by William Angliss Institute Melbourne, Australia.
.....

Course Developer : Developed by Australian Skills Quality Authority (ASQA) and conceptualised by William Angliss Institute.
.....

Entry Requirement : 5 Passes in O/Level, including English
.....

Offered : Part-time

Career Opportunities

- Conference Coordinator
- Event Coordinator
- Event Planner
- Event Sales Coordinator
- Exhibitions Coordinator
- In-house Meetings Coordinator
- Event Venue Coordinator

TRAVEL AND TOURISM MANAGEMENT

ABOUT THE PROGRAMME

Delivering comprehensive hands-on knowledge, this course will provide you with the skills required to work in the retail travel industry. Presentations by industry professionals will expose you to industry trends

Course Code : SIT 60116

Certification : Advanced Diploma in Travel & Tourism Management, issued by William Angliss Institute Melbourne, Australia.

Course Developer : Australian Skills Quality Authority (ASQA) and conceptualised by William Angliss Institute.

Entry Requirements : 5 Passes in O/Level, including English

Offered : Full time

Career Opportunities

- Tour Guide
- Travel Agent
- Information Officer
- Marketing Officer
- Resort Manager
- Customer Service
- Tour Costing
- Advertising & Promotions
- Airline Ground Operations
- Tour Operator
- Cruise Operations
- Reservations Agent
- Technical Manager

FACULTY OF GRADUATE STUDIES AND RESEARCH

Our postgraduate degrees have been established envisioning outstanding research by Graduate students under the supervision and mentoring of well-experienced academic staff. Aside from taking research findings to commercialising and startups, collaboration with the relevant industries in order to conduct industry focused research is also possible.

MASTER OF BUSINESS ADMINISTRATION (MBA)

ABOUT THE PROGRAMME

The course content of the SLIIT MBA programme has been carefully designed to meet current industry needs in consultation with industry experts and academia from locally and globally renowned institutions and approved by the Ministry of Higher Education. The SLIIT - MBA would stand out as a unique programme among MBAs offered in Sri Lanka due to their novel attributes.

- Ministry of Higher Education (MOHE) and University Grants Commission (UGC) approved degree programme.
- Availability of renowned professors from high-ranking overseas and Sri Lankan universities and professional organisations.
- Panel of lecturers possessing PhDs or higher educational qualifications with hands-on business experience.
- Interactive sessions with high-caliber business personalities (local and foreign).
- The course content is designed with inputs from industry experts.

Career Opportunities

- Entrepreneur
- Business Consultant
- Chief Executive Officer
- Managing Director
- Chief Marketing Officers
- Academic positions
- General Managers
- Human Capital Development Managers
- Chief Financial Officers
- Chief Operations Managers
- Project managers
- Management Analysts
- Investment Analysts

MASTER OF SCIENCE (MSc)

ABOUT THE PROGRAMME

SLIIT is a premier degree-awarding institute approved by the University Grants Commission (UGC) encompassing the award of Master's degrees in

- Information Technology
- Information Systems
- Information Management
- Cyber Security
- Enterprise Application Development

INFORMATION TECHNOLOGY

Master of Science Degree in Information Technology is specially designed with a structure to provide a core of advanced knowledge in Information Technology supplemented by a range of options within the areas of Software Engineering, Computer Networks, e-business Technologies, Database Management and Administration, Business Information Systems, etc. The degree is designed to impart knowledge to the current and emerging developments in IT, as well as to provide in-depth knowledge in advanced topics on Information Technology to master the challenges of an information driven economy government agencies searching for tomorrow's digital business thinkers and leaders. This programme is designed to produce graduates with the necessary knowledge, skills and attitudes in Information Technology, Computer Science and Software Engineering fields.

INFORMATION MANAGEMENT

Master of Science Degree in Information Management gives the students a real competitive edge in modern business development and planning, using Information Technology tools. This programme guides students through a proven framework for integrating IT with business by developing comprehensive Information Technology Strategic Plans. The Programme empowers students with information literacy skills and the technical background necessary to function in a fast changing business environment with increased use of computer networks, electronic publishing and the Internet. Upon completion of the programme the students will be able to utilise tools, techniques, and technology effectively within organisations and be able to evaluate and select appropriate methods and technologies for representing, managing and disseminating information. Moreover, the students will be able to get a comprehensive understanding of the tools, techniques, technologies used in secure information management in the organizations. This course will enable the participants to develop a critical awareness of modern Information and Communication Technology in strategic management, decision making and identifying IT infrastructure. This programme is specially designed for IT graduates and professionals with managerial experience.

INFORMATION SYSTEMS

Master of Science Degree in Information Systems covers areas of critical importance to IT employers, such as project and change management, emerging technologies, IT strategy and governance, and compliance, security and service provision. Students will develop a strong capacity in supporting, managing and changing business processes through information and communications technology and information systems. Students will also develop valuable transferable skills in solving business problems, collaboration, project management and application of models, frameworks, and management theory. After the successful completion of this programme, individuals can embark on engaging themselves in high-end top firms and government agencies searching for tomorrow's digital business thinkers and leaders. Graduate jobs include roles such as management consultant, systems analyst/designer, IT infrastructure manager, business analyst, data architect. IS Lead Auditor, Chief Information Officer, Chief Knowledge Officer, Chief Privacy Officer, and Project Manager.

ENTERPRISE APPLICATIONS DEVELOPMENT

The Master of Science Degree programme in Information Technology specialising in Enterprise Applications Development aims to fulfil the long felt need of IT graduates and practising Software Engineers and Developers who crave a professional master's degree to advance their careers. The programme is designed for those aspiring to be Software Architects or senior members of the development team. It allows IT graduates and junior-level software professionals to master the techniques and technologies required to architect and engineer large-scale software projects.

Upon successful completion of the program, individuals would get the opportunity to engage in a vast number of job roles such as Software Architects, Solution Architects, Senior Cloud Infrastructure Engineers, Senior Enterprise Application Developers, Mobility Solutions Architects, Senior DevOps Engineers, and Cloud Software Engineers.

CYBER SECURITY

Master of Science Degree in Information Technology Specialising in Cyber Security intends to address a key global issue facing government, businesses and individuals. The widespread use and dependence on online services bring about new challenges in ensuring our digital economy remaining secure, resilient and trusted. Increasing vulnerability witnessed by the intensity of malicious cyber activities have led to the urgent need for specialists in the field. Currently, there is a demand for graduates with the knowledge and skills required to develop and maintain a secure computing infrastructure, handle and address cyber security threats and manage data access in a distributed network.

MSc ARCHITECTURE

This is a full-time two-year Master's degree in Architecture offered by the Liverpool John Moores University in the UK at SLIIT School of Architecture in Sri Lanka. The students will directly register with both SLIIT and LJMU for both the years of study since the entire degree programme is offered by LJMU. Students having an LJMU BSc (Hons) Architecture degree or any other part I equivalent bachelor's level degree (minimum 3-year) in Architecture are eligible to apply for this MSc Architecture postgraduate degree at SLIIT.

PGD IN EDUCATION

If you are a graduate teacher or a graduate aspiring to be a teacher in the future, PGDE is a MUST have qualification for you to be accepted as a fully qualified professional teacher. The PGDE is also relevant and essential to educational administrative personnel. The programme is specially designed for graduate teachers, lecturers, education administrators and other prospective teachers, with well-rounded modules covering the theory and practice of education. Further, the content of this programme is periodically reviewed to be in line with the transformations and advancements in education in the 21st century. The candidates must undergo a ten-week practicum in a school of his/her choice under a Mentor who will help the candidates to master the art and science of teaching. This programme is approved by the Ministry of Education, the University Grants Commission of Sri Lanka, and other relevant authorities.

MASTER OF PHILOSOPHY (MPhil)

MPhil Degrees of SLIIT are offered in Computing, Engineering and Business Administration fields. They are research based degrees and endeavor to make original contributions to the expansion of the knowledge-base by providing meaningful solutions to current industry problems that could

subsequently evolve as emerging technologies. The degree envisages in developing critical thinking and the capacity and skills to conducting research of high value, of committed and inspired students with scientific curiosity who envision a life-long career based on research capabilities.

DOCTOR OF PHILOSOPHY (PhD)

PhD Degrees of SLIIT are offered in Computing, Engineering and Business Administration fields. They are research-based degrees and endeavour to make original contributions by the discovery of new knowledge to foster the development of the identified thrust areas and potentially coupled with providing meaningful solutions to current industry problems that could subsequently evolve as emerging technologies. The degree envisages in developing the capacity and skills to conduct high-quality research in locally important thrust areas of global value, of determined and inspired students with high scholastic aptitude who envision emerging as academics and leading researchers. SLIIT's Honorary Professors Network could also be used as an effective complementary platform for providing foreign supervisors in conducting related research.

COMPUTING

BSc (Hons) Degree in Information Technology Specialising in

- **Information Technology**

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and pass the Aptitude Test conducted by SLIIT.

- **Computer Systems & Network Engineering**

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) including Physics and Combined Mathematics or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel including Physics & Mathematics in one and the same sitting, and pass the Aptitude Test conducted by SLIIT.

- **Information Systems Engineering**

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and pass the Aptitude Test conducted by SLIIT.

- **Software Engineering**

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and pass the Aptitude Test conducted by SLIIT. To progress from the second year to the third year of the specialisation, a student must meet the minimum GPA requirement specified by the Faculty.

- **Interactive Media**

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and pass the Aptitude Test conducted by SLIIT. To progress from the second year to the third year of the specialisation, a student must pass a selection interview.

- **Cybersecurity**

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and pass the Aptitude Test conducted by SLIIT. To progress from the first year to the second year of the specialisation, a student must meet the minimum GPA requirement specified by the Faculty.

- **Data Science**

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and pass the Aptitude Test conducted by SLIIT. To progress from the second year to the third year of the specialisation, a student must meet the minimum GPA requirement specified by the Faculty.

- **BSc (Hons) in Computer Science**

Minimum of 3 "S" passes (Covering Combined Mathematics & Physics) in G.C.E. A/L (Sri Lanka) in one and the same sitting or Minimum of 3 "C" passes (Covering Mathematics & Physics) in G.C.E A/L Cambridge or Edexcel in one and the same sitting, and a pass the Aptitude Test conducted by SLIIT.

- **BSc (Hons) in Computer Systems Engineering**

Minimum 2 "C" passes and 1 "S" pass in G.C.E. A/L (Sri Lanka) in the Physical Science Stream (covering Combined Mathematics, Physics and Chemistry) in one and the same sitting or Minimum 2 "B" passes and 1 "C" pass in G.C.E A/L Cambridge or Edexcel (covering Mathematics, Physics and Chemistry) in one and the same sitting, and a pass the Aptitude Test conducted by SLIIT.

BUSINESS

BBA (Hons) Degree Specialising in

- **Business Management**
- **Human Capital Management**
- **Marketing Management**
- **Accounting & Finance**
- **Logistics & Supply Chain Management**
- **Business Analytics**
- **Management Information Systems**
- **Quality Management**

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

ENGINEERING

BSc Eng (Hons) Degree in

- **Civil Engineering**
- **Electrical & Electronic Engineering**
- **Materials Engineering**
- **Mechanical Engineering**
- **Mechanical Engineering (Mechatronics)**

Minimum two "C" passes and one "S" pass in G.C.E. A/L (Sri Lanka) in the Physical Science Stream (Combined Mathematics, Physics and Chemistry) in one and the same sitting or Minimum two "B" passes and one "C" pass in G.C.E A/L Cambridge or Edexcel covering Mathematics, Physics and Chemistry in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

HUMANITIES & SCIENCES

BEd (Hons) in

● Physical Sciences

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) in the Physical Science Stream including Mathematics (Combined Mathematics or Higher Mathematics) and Physics or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel including Mathematics and Physics in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

● Biological Sciences

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or Minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel including Biology & Chemistry in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

● English

Local A/Ls : Minimum of 3 "S" passes in any subject stream with English as the Main Subject OR minimum of 3 "S" passes in any stream in English Medium obtained in one and the same sitting AND a pass obtained on the Aptitude Test conducted by SLIIT. Cambridge/Edexcel A/Ls : minimum of 3 "D" passes in any Stream obtained in one and the same sitting AND a pass obtained on the Aptitude Test conducted by SLIIT.

● Social Sciences

- i. Three passes at the G.C.E. A/L Examination (Sri Lanka/ London) in Arts or Commerce stream in one sitting with minimum entry qualification to a university specified by the UGC/MoHE. or
- ii. Any other equivalent qualification considered by the SLIIT Senate and
- iii. A pass in the Aptitude Test conducted by the SLIIT.

● Information Technology

An applicant fulfills the minimum eligibility requirements to be admitted to the approved programme leading to Bachelor of Education Honours in Information Technology (BEd Hons (IT)), if he/she has the following qualifications:

- i. Pass in three subjects at the G.C.E Advanced Level Examinations London or equivalent) obtained at one and the same sitting in any Subject Stream and
- ii. A pass on the Aptitude Test conducted by the Institute.

BSc (Hons) in

● Biotechnology

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel covering Biology and Chemistry in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

● Financial Mathematics and Applied Statistics

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) covering Combined Mathematics & Physics or minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel covering Mathematics & Physics in one and the same sitting and a pass on the Aptitude Test conducted by SLIIT.

ADMISSION REQUIREMENTS FOR FOREIGN UNDERGRADUATE DEGREES

LIVERPOOL JOHN MOORES UNIVERSITY

● BSc (Hons) Architecture

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel in any subject stream (preferably in Biology, Mathematics or Engineering Technology) AND Compulsory 'C' passes in Mathematics and English at the GCE Ordinary Level (Sri Lanka / Edexcel / Cambridge) in one and the same sitting, and a pass at the Aptitude Test conducted by SLIIT.

● BSc (Hons) Psychology

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and a pass at the Aptitude Test and interview conducted by the School of Psychology, SLIIT.

● BSc (Hons) Quantity Surveying

Minimum 3 'S' passes in G.C.E A/L (Sri Lanka) or a minimum 3 'D' passes in G.C.E A/L Cambridge or Edexcel from Physical Science stream in one and the same sitting AND Compulsory 'C' pass for English at GCE O/L (Sri Lanka/ Edexcel / Cambridge) and a pass at the Aptitude Test conducted by SLIIT OR Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 'D' passes in G.C.E A/L Cambridge or Edexcel from Biological Science/ Commerce or Engineering Technology streams in one and the same sitting AND Compulsory 'B' pass for Mathematics and 'C' pass for English at GCE O/L (Sri Lanka/ Edexcel/ Cambridge) and a pass on the Aptitude Test conducted by SLIIT.

● LLB (Hons) Law

Minimum of 2 "C" Passes & 1 "S" Pass in G.C.E A/L (Sri Lanka) Or Minimum of 2 "C" Passes & 1 "D" Pass in G.C.E A/L Cambridge or Edexcel (in any subject stream) AND Compulsory "C" passes for English and Sinhala/Tamil at GCE Ordinary Level (Sri Lanka / Edexcel / Cambridge) in one & the same sitting. AND a pass on the Aptitude Test conducted by SLIIT and the interview conducted by the School of Law, SLIIT.

● BSc (Hons) Nursing

Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel covering Biology and Chemistry in one and the same sitting, AND a pass at the Aptitude Test conducted by SLIIT and the interview conducted by the School of Nursing, SLIIT.

● Interior Design

GCE Advanced Level Examination (Local) - 3 passes in any stream. GCE Advanced Level Examination (Ed-excel/Cambridge or equivalent) - 3 passes in any stream (with minimum 3 D passes or equivalent of minimum 5 points). Successful candidates will be selected through an aptitude test (followed by an interview if required) conducted by the SLIIT School of Architecture.

MANCHESTER METROPOLITAN UNIVERSITY

● Fashion Business & Management

GCE Advanced Level (Local) - 3 Passes in any Stream G.C.E. Advance Level (Edexcel / Cambridge) - 3 D passes in any stream AND Compulsory 'B' pass in English at the GCE Ordinary Level. A pass on the Aptitude Test conducted by SLIIT.

CURTIN COLOMBO (CURTIN UNIVERSITY IN AUSTRALIA)

01. Academic - Successful completion of GCE Advanced Level (Sri Lankan or UK) and achieve the required aggregate as specified below from the best three subjects (excluding General English).

- 8 points* for all engineering**, Cyber Security and Software Engineering degrees.

- 5 points* for Computer Systems and Networking, Information Technology and Business Administration degrees.

*(A=5, B=4, C=3, D=2, E/S=1)

**A/L Mathematics and either Physics or Chemistry are compulsory for all engineering programs.

OR

Successful completion of Curtin University Foundation program in IT, Engineering or Business streams.

02. English - C grade in G.C.E. Ordinary Level English (Local/ Cambridge/Edexcel) OR G.C.E. Advanced level General English (Local).

OR

Achieve minimum scores required from IELTS, TOEFL or PTE Academic tests.

(For further information regarding admissions and fees, students may visit www.curtincolombo.lk or contact the student recruitment team through 076 555 8989/077 443 4432/ inquiries@curtincolombo.lk)

THE UNIVERSITY OF QUEENSLAND

● Bachelor of Engineering (Hons) Civil

● Bachelor of Engineering (Hons) Electrical

● Bachelor of Engineering (Hons) Mechanical

Engineering - Minimum of two "C" passes and one "S" pass in GCE Advanced Level (Local) in the Physical Science Stream (Combined Mathematics, Physics and Chemistry) in one and the same sitting and a pass on the Aptitude test conducted by SLIIT OR Minimum of two "B" passes and one "C" pass in GCE Advanced Level (Cambridge or Edexcel) covering Mathematics, Physics and Chemistry in one and the same sitting and a pass on the Aptitude test conducted by SLIIT.

● Bachelor of Commerce

● Bachelor of Economics

● Bachelor of Business Management

Business - Minimum 3 "S" passes in G.C.E A/L (Sri Lanka) or a minimum 3 "D" passes in G.C.E A/L Cambridge or Edexcel (in any subject stream) in one and the same sitting, and a pass on the Aptitude Test conducted by SLIIT.

BACHELOR'S DEGREES GRADES & REQUIREMENTS (OFFERED BY SLIIT)

GRADING SYSTEM

SLIIT uses 12 grades in assessing student performance. These are A+, A, A-, B+, B, B-, C+, C, C-, D+, D and E.

To obtain a pass in a subject, a student must score a grade 'C' or above. The value of each grade and definition of student performance is shown below.

GRADE	GRADE PTS.	MARKS RANGE
A+	4.00	90 - 100
A	4.00	80 - 89
A-	3.70	75 - 79
B+	3.30	70 - 74
B	3.00	65 - 69
B-	2.70	60 - 64
C+	2.30	55 - 59
C	2.00	45 - 54
C-	1.70	40 - 44
D+	1.30	35 - 39
D	1.00	30 - 34
E	0.00	00 - 29

GRADE POINT AVERAGE (GPA) PER SEMESTER

The GPA is computed by dividing the sum of the products of the number of credits for each course followed and the grade points earned for that course by a student, by the total number of credits for the courses followed during the semester by that student.

.....

CLASS ATTENDANCE

Regular attendance is expected from all students. 80% attendance is necessary as a minimum requirement to sit examinations. Inability to attend classes and/or examinations must be brought to the notice of the Manager of Academic Affairs / Student Services immediately.

WEIGHTED GRADE POINT AVERAGE (WGPA)

Yearly Grade Point Average is computed by dividing the sum of the products of the number of credits of all the courses followed and the grade points earned for those courses by a student in a year, by the total number of credits for the courses followed that year. This is then multiplied by an appropriate weighting factor and summed up over the total number of years related to the specific academic qualification to calculate the WGPA.

DOCUMENTS NEEDED FOR REGISTRATION

- Conditional Offer of Admission
- G.C.E Advanced Level Examination result sheet/certificate
- G.C.E Ordinary Level Examination result sheet/certificate
- Birth Certificate
- National Identity Card (NIC)
- Indemnity form
- Terms and Conditions
- Receipt of the payment for the First Semester
- Passport Size colour photograph of student recently taken

SCHOLARSHIPS

SLIIT SCHOLARSHIPS

SLIIT awards scholarships to students with excellent Grade Point Average (GPA) based on their outstanding academic achievements during each semester.

SLIIT SCHOLARSHIP BASED ON A/L PERFORMANCE

A performance-based scholarship on A/L performance is offered to selected students who have obtained 3A's in local GCE (A/L), or 3A*s in London or Cambridge GCE A/L's. Those who receive this scholarship are eligible for a full tuition fee waiver during the 4 years of study.

"Scholarships are awarded on first-come first-served basis, limiting to a maximum quota assigned to each faculty"

INDUSTRY SPONSORED SCHOLARSHIPS

Leading IT & Software Development companies offer scholarships to selected students following the SLIIT BSc Honours degree.

IFS SCHOLARSHIPS

The Industrial and Financial Systems (IFS) Graduate Scholarship Programme offers full-tuition scholarships to complete the BSc Hons Degree in Information Technology, along with an internship at IFS. Selected candidates follow the academic programme at SLIIT 3 days per week and do internships at IFS 4 days per week. IFS pays all tuition fees and gives the students a monthly allowance as well. On successful completion of the degree, candidates are eligible for permanent positions at IFS.

LOLC SCHOLARSHIPS

LOLC Technology Services provides a comprehensive scholarship programme for SLIIT undergraduate students whilst enabling them to obtain unique exposure. The company provides comprehensive unmatched training on state-of-the-art technologies with hands-on experience during the first year conducted by their well-experienced specialists. It also includes various business domain knowledge and soft skills. Candidates also get the opportunity of visiting various business entities and get hands-on, practical experience. The total course fee of the selected candidate is sponsored by LOLC Technologies, and a monthly stipend is also given throughout the programme. Upon successful completion of the degree, candidates are eligible to continue their career in local and overseas branches of LOLC Technologies.

BACHELOR OF BUSINESS MANAGEMENT | COMMERCE | ECONOMICS

- The fee is Rs. 490,000 per semester

MANCHESTER METROPOLITAN UNIVERSITY

BSC (HONS) FASHION BUSINESS & MANAGEMENT

- The fee is Rs. 290,000 per semester
- *Applicable pound payment to the university will be applied in the Final Year (GBP)*

DEAKIN UNIVERSITY

HIGHER DIPLOMA IN NURSING [LEADING TO BSC (HONS) NURSING]

- The fee is Rs. 225,000 per semester

BANK LOANS

BANK OF CEYLON

- Minimum 20% of the course fee should be borne by applicant
- Maximum period of the loan - course duration + 4 years (maximum)
- Grace period - course duration
- Up to Rs 1.0 Mn - joint and several guarantees of two persons. If above Rs. 1.0 Mn - mortgage over an immovable property
- Rate of interest :
 - up to 5 years - monthly AWPLR + 3.0% p.a. (floor rate - 22%)
 - up to 7 years - monthly AWPLR + 3.5% p.a. (floor rate - 24%)
- Apply jointly with parents or a guardian

For further details please contact your nearest Bank of Ceylon Branch or log on to www.boc.lk

HATTON NATIONAL BANK

- No capital repayment during the period of study.
- Low interest rates.
- 90% Funding of the Course Fee.
- No guarantors required. (Bank to decide)
- Long-term repayments.
- Loan can be coupled to purchase a laptop.
- Special benefits for HNB Youth accountholders.

For further details please contact,
Ishara - 0761427345
Bevan - 0761427880
Tremin - 0771141605 (Kandy)
Log on to <https://www.hnb.lk/>

Sampath Bank

WE PRESENT YOUR FUTURE

SAMPATH BANK

- Obtaining Loan upto Rs.10.0Mn
- Repayment period upto 08 years
- A grace period upto 03 years
- Flexible Repayment options
- 50% discount on the processing fee
- Online banking facility free for the first year

For further details, please contact
0115406609 or
Gayathrie - 0115406677

LIBRARY FACILITIES

06 EXCELLENT LIBRARIES BOOK DROP BOX FACILITY

HIGH STUDENT SATISFACTION LEVELS

8-7 AM PM : E BOOKS
7 DAYS A WEEK : SCHOLARLY DATABASES
: SPECIAL COLLECTION & ACHIEVERS

40,000 
BOOKS & JOURNALS AVAILABLE TO USE
: E-RESOURCES
: ONLINE LIBRARY ACCESS
: RESEARCH HELP GUIDE

Library facilities at both Malabe and Metro Campuses as well as at the Regional Centres support a wide variety of subjects covered by the SLIIT courses at many academic levels. These range from undergraduate and professional development classes to postgraduate studies.

SOME OF THE BENEFITS INCLUDE:

An extensive collection of high quality books, periodicals, core textbooks, teacher recommended E-books, general reading materials, scholarly databases, CDs and DVDs, all monitored via SLIIT's Automated Library System.

The ability to browse a range of books and periodicals available on all Campuses, reserve books, renew borrowed books and request new books using the library's Online Public Access Catalogue.

Library membership allows students to access the SLIIT Digital Library consisting of e-books, journals, past examination papers, recommended texts for related courses, E-Harvard Business Review, in-depth and a range of dictionaries, glossaries and other reference materials.

WIFI FACILITIES AND ADEQUATE WORKSTATIONS

Students are allowed to bring their laptops and tablets to the reference desk. The Reading Room adjoining the library available for study is equipped with power points for laptops and provides wireless Internet access.

Our libraries are continuously enhanced to cater to the ever-increasing number of students. Libraries are open to SLIIT students daily including weekends, from 8.00 am-7.00 pm. They are closed only on Poya days and other special holidays specified in the SLIIT calendar.

To become a library member, students are requested to submit a completed membership form which is available at the library.

ADDITIONAL SERVICES AVAILABLE FOR ALL SLIIT LIBRARY USERS

Files of newspaper clippings related to computing, management and engineering, an index of journal articles and a CD / DVD collection.

Current Awareness Services (CAS) and a Selective Dissemination of Information (SDI) service where users register subjects of interest to receive relevant information are also available.

A document delivery service provides photocopying (past examination papers and book chapters), interlibrary loans and selective articles.

User awareness services beyond boundaries.

The library conducts user education programmes such as Workshops , Webinars, and Technical Sessions on various subject streams by inviting experts of those fields in and out of the country.

ONLINE LIBRARY ACCESS

Studying away from the campus is not a barrier to connect with SLIIT library .SLIIT libraries are accessible 24/7 through online and the library team is equipped with knowledge and technology to serve library users.

NETWORKS WITH OTHER INSTITUTIONS

SLIIT is a member of the Commonwealth University Libraries network, and a member of the Sri Lanka Scientific and Technology Information Network (SLISTINET). This allows the SLIIT library to access numerous scientific databases. SLIIT also maintains strong working relationships with other libraries in Sri Lanka and holds a Corporate Library Membership with the Chartered Institute of Management Accountants (CIMA) library, the Chartered Institute of Accountants of Sri Lanka library, as well as with the British Council.

Furthermore, SLIIT has access to the Curtin University library and databases, liaising with library professionals at Curtin University to provide on going research support to SLIIT students. The SLIIT Library also has full access to Liverpool John Moores University (LJMU) Library.

STATE OF ART NEW LIBRARY @ MALABE CAMPUS

A fully-fledged separate Learning Commons Centre is upcoming at Malabe Campus. This will enable all department libraries to be located centrally with better accessibility for student activities such as workstations, reading, discussion areas, presentations units etc .

LABORATORY FACILITIES

SLIIT offers free WIFI access in all student areas, and boasts a wide range of laboratory facilities across its campuses and centres. Significant investments in each of the laboratories ensures that students are, in turn, able to make the most of these resources in order to support their education.

MALABE CAMPUS LABS

The Malabe campus labs consist of Computer, Engineering and Surveying laboratories, and are equipped with fully-functional, modern computers and technology. These labs are consistently upgraded and monitored to ensure they are continually up-to-date and fully functional.

Computer Laboratories:

The Malabe campus labs consist of Computer, Engineering and Surveying laboratories, and are equipped with fully-functional, modern computers and technology. These labs are consistently upgraded and monitored to ensure they are continually up-to-date and fully functional.

- Lab 1 : 62 Computers
- Lab 2 : 62 Computers
- Lab 3 : 62 Computers
- Lab 4 : 20 Computers
- Lab 5 : 62 Computers
- Lab 6 : 62 Computers
- Lab 7 : 31 Computers
- Lab 8 : 31 Computers
- Lab 9 : 62 Computers
- Lab 10: 62 Computers
- Lab 11: 31 Computers
- Lab 12: 32 Computers
- Lab 13: 62 Computers
- Lab 14: 62 Computers
- Lab 15: 62 Computers
- Lab 16: 24 Computers
- Lab 17: 24 Computers
- Lab 18: 30 Computers
- Lab 19: 30 Computers
- Lab 20: 60 Computers
- Lab 21: 45 Computers
- Lab 22: Audio Lab
- Lab 23: 31 Computers
- Lab 24: 31 Computers
- Lab 25: 31 Computers
- Lab 26: 31 Computers
- Lab 27: 64 Computers
- Virtual Computer lab : 120 computer

Surveying Laboratories:

The SLIIT surveying laboratories are particularly catered for our Architecture and Quantity Surveying students, and have been designed and constructed to include the following:

- Measurements Laboratory
- QS Computer Laboratory
- Surveying Laboratory
- Materials Laboratory

Engineering Laboratories:

Our engineering laboratories are completely state-of-the-art, fitted with cutting-edge technology and superior functionalities. Engineering students of all disciplines are able to access these labs as and when required, guided by their respective lecturers. All equipment and facilities are continuously improved and modernised so as to provide our students with avant-garde resources every step of the way.

The following are featured at SLIIT'S engineering laboratories:

- Engineering Mechanics Laboratory
- Structural Engineering Laboratory
- Civil Engineering Materials Laboratory
- Hydraulics and Hydrology Laboratory
- Surveying Laboratory
- Geotechnical Laboratory
- Traffic and Transportation Engineering Laboratory
- Environmental Engineering Laboratory
- Electrical Power Systems Lab
- Communication Lab
- Digital Electronics Lab
- Analog Electronics Lab
- Embedded Design Lab
- DIY Workshop
- Networking Lab
- Machines and Power Electronics Lab
- Mechanical Engineering Workshop
- Robotics Laboratory
- Thermo/Fluids Laboratory
- Mechanics Laboratory
- Automobile Laboratory
- Mechatronics Laboratory
- Industrial Automation Laboratory
- Control Systems Laboratory
- Material processing laboratory
- Material characterisation laboratory

METRO CAMPUS LABS

Students at our Metro Campus are provided with the following:

Lab 1	:	62
Lab 2	:	62
Lab 3	:	24
Lab 4	:	24
Lab 5	:	24

MATARA CENTRE LABS

Matara Center occupied fully completed superior computer laboratories along with modern facilities. It includes the following labs:

Lab 1	:	32 computers
Lab 2	:	24 computers
Lab 3	:	32 computers

KANDY CENTRE LABS

The labs at our SLIIT Kandy Centre also integrate the institute's commitment to uphold and maintain firstclass standards. To that effect, the computer labs at this centre include:

- Lab 1 : 65 computers
- Lab 2 : 25 computers
- Lab 3 : 25 computers
- Lab 4 : 25 computers
- Lab 5 : 25 computers

KURUNEGALA CENTRE LABS

The SLIIT Kurunegala Centre consists of computer labs and is comprised of:

- Lab 1 : 35 computers
- Lab 2 : 15 computers

JAFFNA CENTRE LABS

Students at our Jaffna Centre are provided with the following:

- Lab 1 : 25 computers

IN-HOUSE INTERNSHIP PROGRAMMES AT SLIIT

SLIIT recognises that establishing early contact with working environments is a key component of the students' education and professional development. The Industrial Training Unit was launched with the goal of industry training (internships). SLIIT maintains strong connections with government authorities and private sector organisations such as Pearson, Virtusa and 99x and further takes advantage of these relationships to setup different industrial training and placement opportunities for students.

Aside from providing students with professional prospects and hands-on experience in their relevant fields, companies, in turn, are able to approach a large number of students in-house for their employment needs. Additionally, they can also harness and cultivate novel ideas for their own projects as a result.

A non-GPA module named Industry placement - 6 months has been introduced for the BSc Honours Degree in IT to stress the importance of industry experience.

The assigned 8-course credits are met by undergoing a recommended period of 6 months of training in the industry which allows students to develop soft skills together with technical exposure.

RESEARCH & DEVELOPMENT FACILITIES

The overarching goal of SLIIT as a premier tertiary educational institute in Sri Lanka is to raise the quality of our research to a higher level. We aim to consistently foster an environment that promotes a vibrant research culture. SLIIT has integrated research methodology as a compulsory module into both undergraduate and postgraduate curricula, to successfully promote research opportunities amongst both the academic and student groups. SLIIT encourages research in three ways. The first criteria being Reputation, which is achieved by publishing in conferences and journals of the highest caliber, calculated by the impact factor. The second factor is volume, which is the number of publications, and the third factor is influence, which is the extent to which other researchers checked, verified, and used our research content in their work.

Staff performances are also evaluated against these three research criteria to foster a robust research culture and encourage them to conduct research that will be published in high-end academic journals and conferences, thereby securing national, regional, and international research awards and external research funding.

RESEARCH PROFILE

SLIIT is striving to raise its profile internationally in the realm of research to elevate its standing in the World University Rankings. We are currently reporting in the Times Higher Education World Ranking and the Young University Rankings of the Times Higher Education World Ranking. In terms of impact ranking, we were awarded the status of Times Higher Education Impact Ranking in 2021. We submit to all of the major global university rankings, with the goal of being recognized for the quality of our education and research.

All faculties hold annual international conferences at which students and staff can present their research, with the goal of publishing the same with the approval of the authors to faculty journals which are released annually or biannually. We aim to increase the quality of these journals over time, have them included in indexed databases, and encourage authors from across the globe to publish in these journals.

MECHANISMS

Research conducted for Master's and M.Phil./Ph.D. programs paves the way to increase the quantity and quality of SLIIT's research profile, allowing staff members to participate in cutting-edge projects. This in turn contributes to the development of a critical mass for research and results in our content being recognized in the national and international arena

Providing financial assistance and research grants of up to 400,000 LKR per year to academic staff members in order for their research output to be disseminated at national and international conferences and published in the top 10% of journals worldwide, such as Scopus, Web of Science, or equivalent.

To facilitate commercialization, a product development branch was recently established for researchers to discuss with commercial partners, to bring their work to the market. With a thorough legal framework in place, these researchers will also be supported by research grants of up to 400,000 LKR.

Encourages collaboration with local and foreign researchers via online facilities to collaborate with SLIIT on research projects

RESEARCH CENTERS

While Industry engagement units together with SLIIT innovate works in taking these research to the industry, each faculty have research groups which are multidisciplinary. Legal mechanisms, which include an Intellectual Property Advisory Committee and an Ethics Review Committee, have been put in place to allow SLIIT to commercialize its research and connect its expertise to the needs of the outside world. The SLIIT Research Centre is also responsible for the National Conference on Technology and Management (NCTM): a forum that discusses contemporary issues in the fields of Technology and Management. Additional workshops assist SLIIT postgraduate students to improve their skills in research.

The SLIIT Research Centre at the Malabe Campus provides a nurturing study environment, and superior computer facilities, and is freely available for research discussions.

SLIIT SRI LANKA TECHNOLOGY INCUBATOR: CONCEPT-NURSERY FACILITIES

The Sri Lanka Technology Incubator, also known as the 'concept-nursery,' is located on the SLIIT Malabe Campus and is designed to build, help, and promote both innovators and new enterprises. These companies can access the Institute's cutting-edge facilities, which include a contemporary networking backbone, while providing access to business and technical experience, financial resources, worldwide industry contacts, communication facilities, business counseling, business plan preparation, and marketing. They can also draw on a large pool of specialized experience and carefully selected, highly-trained students for their initiatives. Students can then gain vital experience in an innovative working environment.

WAY FORWARD

The objective of SLIIT is to find commercial partners for research work and take this to the next level and bring the research to the market. Thereby, staff members will be enticed to take part in all-sponsored research projects on campus, addressing a jointly identified issue with the aid of a partnering organization where they can work together to develop solutions and perfect the technology to bring products to a commercial level. Forging partnerships with institutions such as LJMU and Curtin University with the co-operation of our honorary professor network overseas, to conduct joint supervision research projects to facilitate research conducted on campus. Working towards establishing centers of excellence in research for specialized research areas such as sustainability and robotics, where timely and cutting-edge research work on current research topics will be conducted. Currently, this is done through the respective research groups and faculties, supplemented by SLIIT Innovate. SLIIT aims to get listed in high-end research journals and publications.

STUDENT SERVICES

SLIIT Student Services comprises a dedicated team equipped with information and a range of support services, including specialised services that are made available online and for walk-ins. Our primary responsibility is to cater to all student inquiries and requests effectively and efficiently by guiding them in the right path and maximising their opportunities.

Amongst all the service facilities provided to the students, the SLIIT Student Support Desk is the most widely used platform for inquiries and service requests. Students use this online platform to communicate with SLIIT Student Services as it provides all the services and connects with relevant officers immediately. Courseweb, the learning management system in SLIIT also provides the details of their enrolled study programs along with all the common notices to students.

STUDENT SUPPORT DESK

An online platform that is accessible any time, from anywhere, designed to provide information on frequently asked questions, to request information or to lodge an inquiry. Student Support Desk connects many service areas of SLIIT including general Student Services, Registry and Examination support, making it easier for students to reach out by one click of a button and ensures timely, accurate and documented responses.

SLIIT ENGLISH HELP DESK

Clear communication and skilful use of the English language are of key importance to professionals in all industries today. As such, all students are required to take the prescribed courses for their degree. SLIIT offers a novel method of assisting students in this area as and when required through the English Help Desk. This is manned by the staff of the English Language Teaching Unit.

SLIIT WEIGHT TRAINING CENTER

The SLIIT weight training centre located at the Malabe campus is a complete unit consisting of modern equipment.

SLIIT STUDENT TRANSPORT

SLIIT provides an inter-campus transport service on a regular schedule between Malabe and Metro campuses for the benefit of students.

CAREER GUIDANCE UNIT (CGU)

SLIIT CGU aims to provide undergraduates with an enhanced understanding of career options and industry-required technical and non-technical skills, as well as available employment opportunities. Apart from course-specific technical workshops by industry partners, Career Readiness sessions and workshops such as CV writing, Interview facing, Office Etiquette are also conducted by the Unit. These workshops provide an opportunity for undergraduates to learn beyond the taught content, enhancing their professional acumen, allowing them to understand the practical application of their knowledge. The CGU links with leading corporates and institutions to facilitate the best opportunities for our students, via prominent annual events such as the SLIIT Career Week and the HR Forum. These serve as a platform for students to meet and contact prospective employers from the IT, Engineering, and Business services and sciences sectors. The CGU also handles vacancy postings, CV collection for employers and industry visits to further assist and improve university industry linkage.

SLIIT MEDICAL FACILITY

SLIIT considers the health of students and staff as one of their main concerns. Hence, SLIIT provides a full-time medical consultancy service for all students and staff. The SLIIT medical facility is available at the Malabe campus. This service is provided free-of-charge.

STUDENT COUNSELING & WELL-BEING CENTER

The Helping Hands Counseling and Well-being Center operate under the guidance of two highly skilled and experienced Clinical Psychologists to assist undergraduates during stressful times. Students can seek psychological guidance for any issues that may hinder or trouble their academic performance and well-being. The centre facilitates, walk-ins, appointments as well as virtual assistance to students.

SLIIT SPORTS, CLUBS & SOCIETIES

Participation in sports, clubs and societies is an important part of student life. Aside from providing a social and cultural environment for students to interact with others, they also open up opportunities, and exposure to new experiences and encourages personality development.

SLIIT strongly believes that students need to complement their academic work with a wide variety of extra-curricular and co-curricular activities. As such, SLIIT provides these opportunities and encourages students to participate in them actively.

SLIIT proudly hosts 35 clubs and societies established based on study program specialisations or a particular vocation, common interests among the student community and representation of worldwide affiliations and membership. Data Science Student Community, Faculty of Engineering Media Club, Logistics Club, English Literary Association, Gaming Club, IET Student Chapter, Rotaract club, Leo club and AIESEC are a few examples of the clubs and societies.

PHYSICAL EDUCATION & SPORTS

Promotes sports and recreational activities. At SLIIT, students engage in a wide range of competitive and recreational sports, including Archery, Badminton, Basketball, Carrom, Chess, Cricket, Football, Futsal, Hockey, Karate, Mixed Martial Arts, Netball, Rugby, Swimming, Table Tennis, Tennis, Taekwondo, Track and Field, Powerlifting and Volleyball.

The Malabe campus has excellent indoor and outdoor sports facilities. These include a playground, indoor badminton courts, volleyball court, a basketball court, tennis courts, swimming pool, well-equipped weight training centre.

STUDENT INTERACTIVE SOCIETY (SIS)

The main student body within SLIIT, comprising student representatives of the Faculty/ School student societies of Computing, Engineering, Business, Humanities & Sciences and School of Architecture. The patrons of the society are the Chancellor and Vice Chancellor of SLIIT. SIS together with the respective student communities, organises various events, maintains decorum and adheres to rules, upholding the good name of the institute.

FACULTY OF COMPUTING STUDENT COMMUNITY (FCSC)

Aims to enhance the knowledge of IT students and accustom them to the ever-changing IT industry. This is done through activities such as workshops and guest lectures by leading IT professionals in the industry, enabling better student interaction and knowledge-sharing

SLIIT WIRAMAYA

FACULTY OF BUSINESS STUDENT COMMUNITY (FBSC)

Formed under the main student body, the Student Interactive Society (SIS), this comprises the undergraduates of the Business Management stream. The committee acts as the student representative, facilitating necessary programmes along with managing the Faculty of Business.

CHARITY PROJECT - SENEHASE PIYAWARA

SLIIT'S GOT TALENT

FACULTY OF ENGINEERING STUDENT COMMUNITY (FESC)

Considered the main student community of the Faculty of Engineering, functioning under the guidance of the Student Interactive Society (SIS). FESC mainly focuses on the academic problems and the difficulties of engineering students, and works together with senior staff of the faculty and the community for solutions.

FACULTY OF HUMANITIES & SCIENCES STUDENT COMMUNITY (FHSSC)

The Faculty of Humanities and Sciences is a multidisciplinary Faculty, and FHSSC is the student body that comprises of students from all the disciplines mainly, Natural Science & Education, Law, Psychology, Nursing and Mathematics. The FHSSC focuses on enhancing student satisfaction in terms of academic and non-academic issues and enriching the overall student experience at SLIIT. FHSSC collaborates and seek guidance continuously from the Senior Faculty members, to extend their support for the student body effectively.

MOVIE FEST

FOSS COMMUNITY

Free and Open Source Software helps expand the scope of Information and Communication Technology (ICT). The FOSS Community at SLIIT helps raise awareness among students to learn the concepts of Open Source Software movement, facilitating a base to link with the global community.

SLIIT ALUMNI ASSOCIATION

Formed under the main student body, the Student Interactive Society (SIS), this comprises the undergraduates of the Business Management stream. The committee acts as the student representative, facilitating necessary programmes along with managing the Faculty of Business.

ROTARACT CLUB

A service club established for SLIIT students under 'Rotary International'. Membership is open to all SLIIT students, and aims at developing professional and leadership skills, emphasising on respect for the rights of others, promoting ethical standards and the dignity of all useful occupations. It also creates opportunities for members to initiate community development projects, promoting peace and understanding within the community, interacting with sponsoring Rotary Clubs and actively participating in the activities undertaken by them. Rotaractors conduct projects under four categories: professional development, community service, club service and international understanding.

ROTARACT CLUB

SLIIT GAVEL CLUB MEETING

THE GAVEL CLUB

A community that provides the student body with opportunities to develop communication skills as well as means for self-improvement. Since its formation in 2012, the Gavel Club has thrived under the guidance and support of the SLIIT Toastmasters Club, as well as other academic staff. As a communication and leadership programme modelled after Toastmasters International, the Gavel Club is a way of providing the Toastmasters experience to groups who may be eligible for regular membership. The Toastmaster title is globally recognised as an accredited name. Not only does the Gavel Club allow students to earn this title, but it also prepares these students for the demands of the real world after university.

SLIIT WALK

GAMEFEST

SLIIT GAMING COMMUNITY / GAME FEST

Formed in 2013 by a group of young, dynamic individuals with a passion for digital games, including game designing and developing. A multipurpose group to create opportunities amongst those interested in this particular field. The community mainly intends to teach the fundamentals of game designing and development, providing resources and instructions to those willing to embark on creating or designing games and game testing.

STUDENT ACHIEVEMENTS

SLIIT encourages students to regularly participate in competitions both on National and International levels. Participation in these competitions has been very rewarding, securing highly acclaimed awards. Some such past achievements by SLIIT students are recorded below

SPORTS ACHIEVEMENTS

Semi-Finalist : Winter Olympic opening Tag Rugby Tournament organized by the Ministry of youth and sports

Champions : Swimming (Men's & Women's) | 2nd Runners up: Badminton (Men's & Women's) and Basketball 3*3 (Men's)
| Semi Finalist : Futsal at APIIT Extravaganza 2022

Champions : Swimming and Chess (Men's and Women's) | 1st Runners up : Badminton (Men's), Football, Track & Field and Hockey (Women's) | 2nd Runners up : Rugby, Cricket and Netball | Overall Runners up – 2022 at NSBM U-SPORTS
SSPE SABRA Super 7's Rugby Tournament 2022 – Plate Champions and Anjana Vinod from SLIIT awarded as the best player of the tournament

1st Runners Up : Netball Team at CIMA Sports Day 2022

Champions : SLIIT Athletic Men's & Women's teams-NSBM Sports Fiesta 2019

Doubles 1st Runner up: Buwaneka Goonethilleke, Badminton -13th South Asian Games 2019

Champions: Buddhi International Chess Championship 2019

Champions: CIMA Sports Day 2019-Netball Championship

Champions: 4th SLIIT Castle Fest 2019

Champions: Ethugalpura International Chess Championship 2019

Cup Champions : Leo Super 7s' Inter-University Rugby Championship 2018, 2019 & 2020

Cup Runners up: KDU Leaders' Trophy 2019-Rugby Championship

Champions: Japan Karate Do Dojokai National Championship 2013, 2014, 2015, 2016, 2017, 2018 & 2019

Champions: APIIT Extravaganza Futsal Championship 2018 & 2019

1st Runners up: KDU Leaders' Trophy 2018 & 2019

Champions: APIIT Extravaganza Cricket Championship 2018

Champions: LBS Trophy 2018

Champions: NSBM USports Futsal Championship 2018

1st Runners up : NSBM USports Hockey Championship 2018

Champions : SLIIT Men's Badminton team-J'Pura Smashes 2018

Champions :1st SLIIT Seshino Karate Championship 2018

2nd Runners up : SLIIT Basketball Men's team-UiTM International Sports Fiesta 2018

Champions: SLIIT Basketball Men's team-APIIT Sports Extravaganza 2017 & 2018

ACADEMIC ACHIEVEMENTS

Microsoft Imagine Cup 2022 – Team Nana Shilpa of SLIIT Faculty of Computing ranks as the runners-up

Coco-Remady : Best Solution addressing the National Disasters | LandVal : Bronze in the tertiary business category | Agent Hunt : Merit in the Tertiary Category (Business) | Lumoz : Merit in the tertiary category | Nena Shilpa : Merit in the Tertiary Category (Technology) at NBQSA – The ICT Awards 2021.

‘CocoRemedy’ : World Champion title at the World Summit Awards (WSA) under the 2021 Young Innovators category

Nisali Siriwardene, from SLIIT School of Architecture for been selected as a finalist in the 07th Annual INSPIRELLI Awards under the Architecture Category.

Merit Award: Cropmedic+, an Intelligent Plant Diseases Identification, and Dispersion Forecasting System at the 19th APICTA Awards 2019

Dr. Windhya Rankothge for receiving the most prestigious ICT award for ICT professionals in Sri Lanka under ICT leader of the year 2019 (Female Category)

Winner: Tharusha Randula (SLIIT School of Architecture), winner of the Grand Prize for Architecture at the INSPIRELLI AWARDS

2nd place at the 1st International Energy and Electricity Market Business Decision Simulation Competition Team SLIIT Faculty of Engineering,

Winner : Chetty Beach Front Development Design Competition by SLIIT School of Architecture

Winner : CSSL ICT STUDENT of the year 2018

First runner up :Sri Lanka Section Speak Out for Engineers" (SOFE) Competition Sri Lankan Round

Bronze Award for Tertiary Projects, Technology Category : Product: Crop Medic, 21st National ICT AWARDS – NBQSA 2019

Silver Award for Tertiary Projects, Business Category : Product: Dynamic Defender, 21st National ICT AWARDS – NBQSA 2019

Merit Award for Tertiary Projects, Technology Category : Product: Enhanced Theft Detection System for Automobiles and Automobiles parts, 21st National ICT AWARDS – NBQSA 2019

Merit Award for Tertiary Projects, Business Category : Product: DiabiTech, 21st National ICT AWARDS – NBQSA 2019

Winners: The “Team AlgoR” from SLIIT for emerging as one of the two winners in the #Microsoft South East Asia Imagine Cup 2018 competition
